

Q#	Topic	Question Description	Option A	Option B	Option C	Option D	Correct Option
SECTION: WORD							
1	Word	In Word, Page layout tab includes	Create	Show	Paragraph	Tables	C
2	Word	Page Setup group includes _____options.	Orientation	Breaks	Hyphenation	All of These	D
3	Word	Margins define the amount of _____ that appears at the top, bottom, left and right edges of our document.	Extra space	White space	Blank space	No space	B
4	Word	_____ margin setting adds extra space to the side margin or top margin of a document that we plan to bind.	Page	Gutter	Semi Extra	Adjust	B
5	Word	Portrait means _____	Vertical	Horizontal	Both A and B	Nither A Nor B	A
6	Word	Business correspondence uses the default page size in Word.	8 1/2 by 11	8 1/2 by 10	8 1/4 by 10	None	A
7	Word	In News letters _____ option is used to splits the text into two or more areas and also available in word.	Row	Columns	Both A and B	Nither A Nor B	B
8	Word	What feature in word allows you to track changes made to a document	track change	comments	document inspector	compare	A
9	Word	_____ Section break inserts the section break and then starts the new section on the next odd or even numbered page.	Even or Odd	Continuous	Next Page	New Page	A
10	Word	According to Add line numbers, Table is counted as one line.	TRUE	FALSE	Can't Say	None	A
11	Word	Ctrl + A is used for	Delet All	Select All	Unselect All	None	B
12	Word	Which of the following sortcuts will bold the selected text	CTRL+ B	CTRL+I	CTRL+ U	CTRL+ E	A
13	Word	Page Background includes	Watermark	Page Color	Page Borders	All of These	D
14	Word	Text flows around the image and hugs its shape.	Tight	Through	Behind Text	None	A
15	Word	In word, which view is best for reading a document without distractions	Prient layout	Web layout	Read mode	Outline view	C
16	Word	Mailing Tab includes	Create	Start Mail Merge	Preview Results	All of These	D
17	Word	Create Group includes	Envelopes	Labels	Both A and B	Nither A Nor B	C
18	Word	Start Mail Merge group includes	Start Mail Merge	Select Recipients	Edit Recipient List	All of These	D
19	Word	Mail Merge Data Base list extension is	.accdb	.mdb	Both A and B	Nither A Nor B	B
20	Word	Address block appears which dialoge box?	Insert Address block	Address block	Field Block	None	A
21	Word	REFERENCES TAB includes	Table of Contents	Captions	Both A and B	Nither A Nor B	C
22	Word	Table of Contents Group not includes	Table of Contents	Add Text	Update Table	Insert Text	D
23	Word	Alt+W is used for which Tab?	Data	Insert	View	Page Layout	C
24	Word	How do you create a new document in word using office 365	File>>new	Home>>new	Insert>>new	File>>opec	A
25	Word	How can you access a previously saved document quickly in word	File>>open	File>>recent	Home>>recent	Insert>>open recent	B
26	Word	In word, how can you adjust the line spacing of a paragraph	Hometab line and paragraph spacing	Layout >spacing	Design tab > speacing options	View tab > Line Spacing	A
27	Word	Show group includes	Ruler	Gridlines	Navigation Pane	All of These	D
28	Word	Navigation Pane provides _____ views by clicking on their respective tabs at the top of the Navigation Pane.	1	2	3	4	C
29	Word	_____ is a series of commands that we can use to automate a repeated task and can be run when we have to perform the task.	Macro	Consolidation	What if Analyse	None	A
30	Word	While Naming a Macro user cannot use	Space	@	%	All of These	D
SECTION: POWERPOINT							
31	PowerPoint	Which of the following Tab is not avalible in Ms-PowerPoint?	Home	Page Layout	View	Design	B
32	PowerPoint	Which tab is not available on left panel when you open a presentation?	Outline	Slides	Notes	All of the above	C
33	PowerPoint	PowerPoint presentations are widely used as	Note outlines for teachers	Project presentations by students	Communication of planning	All of the above	D
34	PowerPoint	In slide layout panel how many layouts are available for text layout by default?	4	7	12	None of the above	A
35	PowerPoint	What PowerPoint feature will you use to apply motion effects to objects?	Slide Transition	Slide Design	Animation Objects	Animation Scheme	D
36	PowerPoint	What feature will you use to apply motion effects in slide transitions?	Slide Transition	Slide Design	Animation Objects	Animation Scheme	A

Q#	Topic	Question Description	Option A	Option B	Option C	Option D	Correct Option
37	PowerPoint	_____ is a template used to create consistent layouts throughout the MS PowerPoint presentation.	Notes Master	Slide Master	Handout Master	Clip Art	B
38	PowerPoint	In MS-PowerPoint, Default Page Orientation is	Portrait	Landscape	Both A and B	NONE	B
39	PowerPoint	Want your logo in the same position on every slide, automatically, Insert it on the _____ in PowerPoint.	Handout master	Notes master	Slide master	All of the above	C
40	PowerPoint	Objects on the slide that hold text are called	Placeholders	Object holders	Auto layouts	Text holders	A
41	PowerPoint	Which of the following group is not available in Home tab of Ms-PowerPoint?	Clipboard	Slides	Alignment	Font	C
42	PowerPoint	_____ is use to apply formatting from text, shapes and pictures to another selection in Ms-PowerPoint.	Format Painter	Copy	Styles	None of the above	A
43	PowerPoint	How many groups we have in Insert tab of Ms-PowerPoint?	6	7	8	9	B
44	PowerPoint	In PowerPoint, you can use _____ to launch any other Presentation, Application or Website from your presentation.	Styles	Action button	Object Linking	None of the above	B
45	PowerPoint	You can modify the background of a PowerPoint presentation by using _____ Tab.	Design	Insert	Transitions	Slide Show	A
46	PowerPoint	What is a motion path in PowerPoint?	A type of animation entrance effect	A method of advancing slides	A method of moving items on a slide	All of the above	C
47	PowerPoint	The special effects used to introduce slides in a presentation are called _____ in PowerPoint.	Effects	Custom animations	Transitions	Present animations	C
48	PowerPoint	Which of the following should you use if you want all the slide in the presentation to have the same "look"?	The slide layout option	Add a slide option	Outline view	A presentation design template	D
49	PowerPoint	In order to edit a chart in PowerPoint, you can	Delete and create new	Click and drag the chart object	Double click the chart object	Click the chart object	C
50	PowerPoint	Which by default theme was applied on the slides in Ms-PowerPoint?	Apex Theme	Office Theme	Angels Theme	None of the above	B
51	PowerPoint	Slide Orientation option available in which group of Design tab in PowerPoint?	Themes	Background	Page Setup	Page Layout	C
52	PowerPoint	How the information is arranged on the slide is controlled by _____ in PowerPoint?	Slide layouts	Background	Themes	Slide Master	A
53	PowerPoint	The presentation inherits various design elements as well as prewritten content that's stored in the template called _____	Background	Slide layouts	Themes	Effects	C
54	PowerPoint	Slide layout option available in _____ group of Home tab in Ms-PowerPoint.	Slides	Font	Editing	Clipboard	A
55	PowerPoint	The Powerpoint presentation can be saved using the shortcut key.	Ctrl+S	Shift+F12	Both A & B	Ctrl+F3	C
56	PowerPoint	Which of the following is not a view of Powerpoint?	Normal View	Slide Sorter View	Notes Page View	Outline View	D
57	PowerPoint	Which of them is not a part of PowerPoint Ribbon?	Home	Design	Tool	Slide Show	C
58	PowerPoint	By default, Save, Undo and Redo appear on the Quick Access Toolbar	TRUE	FALSE			A
59	PowerPoint	The very bottom of the screen is the _____ which tells about the slide that is currently displayed.	Notes	Status bar	Task Bar	Navigation Pane	B
60	PowerPoint	What is the Shortcut key of Hyperlink in Ms-PowerPoint?	Ctrl+H	Ctrl+L	Ctrl+K	None	C
SECTION: EXCEL							
61	Excel	What is the default row height in Excel?	12.75	15	20	25	A
62	Excel	Which of the following charts is best for showing trends over time?	Pie Chart	Line Chart	Bar Chart	Scatter Plot	B
63	Excel	How do you freeze the top row in Excel?	View > Freeze Panes > Freeze Top Row	Insert > Freeze Top Row	Data > Freeze Top Row	File > Freeze Top Row	A
64	Excel	Which of the following is not a valid data type in Excel?	Number	Text	Picture	Date	C
65	Excel	Which Excel function will display the current date?	NOW()	DATE()	TODAY()	CURRENT()	C
66	Excel	Which chart type is best for comparing parts of a whole?	Bar Chart	Pie Chart	Line Chart	Area Chart	B
67	Excel	How do you remove the content of a cell in Excel?	Press Delete	Press Backspace	Right-click and choose Clear Contents	All of the above	D
68	Excel	What is the purpose of the TEXT function in Excel?	To convert a number to text	To change the font style	To extract text from a string	To combine text from multiple cells	A
69	Excel	Which of the following is a valid cell reference in Excel?	A1	1A	AA1	Both A and C	D
70	Excel	Which function will return the number of characters in a text string?	LEN()	LENGTH()	COUNT()	CHAR()	A

Q#	Topic	Question Description	Option A	Option B	Option C	Option D	Correct Option
71	Excel	How do you insert a comment in an Excel cell?	Review > New Comment	Home > New Comment	Insert > New Comment	Data > New Comment	A
72	Excel	How do you highlight cells that meet a specific condition?	Use Conditional Formatting	Use Data Validation	Use Format Painter	Use Sorting	A
73	Excel	Which of the following is not a type of Sparkline in Excel?	Line	Column	Win/Loss	Bar	D
74	Excel	How do you protect a worksheet in Excel?	Review > Protect Sheet	Home > Protect Sheet	Data > Protect Sheet	File > Protect Sheet	A
75	Excel	How can you change the width of a column in Excel?	Right-click the column header and select "Column Width"	Double-click the column boundary on the right side	Drag the column boundary on the right side of the column header	All of the above	D
76	Excel	What is the purpose of the SUBTOTAL function in Excel?	To calculate the total of a range	To calculate the total based on a specific function	To calculate the sum of a filtered range	Both B and C	D
77	Excel	What does the MOD function do in Excel?	Returns the remainder after a number is divided by a divisor	Modifies the value of a cell	Multiplies the value of a cell by a specified factor	Returns the modulus of a number	A
78	Excel	How do you delete a worksheet in Excel?	Right-click the sheet tab and select Delete	Home > Delete > Delete Sheet	File > Delete > Delete Sheet	Data > Delete > Delete Sheet	A
79	Excel	Which of the following is used to combine multiple cells into one?	Merge & Center	Group	Consolidate	Combine Cells	A
80	Excel	What is a common use case for filtering data in Excel?	To find specific records in a large dataset	To create new formulas	To change cell colors	To insert new columns	A
81	Excel	How can you filter a list to show only items that have not been reviewed?	Use Text Filters > Does Not Contain	Use Number Filters > Less Than	Use Date Filters > Before	Use Custom Filters > Is Empty	D
82	Excel	Which feature allows you to filter for duplicates or unique values?	Remove Duplicates	Text Filters > Custom Filter	Number Filters > Top 10	Filter by Color	A
83	Excel	What is the purpose of the "Advanced Filter" feature in Excel?	To apply complex criteria and copy filtered data to another location	To format cells with specific rules	To sort data	To create charts	A
84	Excel	Which option would you use to filter for values within a specific date range?	Date Filters > Between	Number Filters > Greater Than	Text Filters > Contains	Custom Filters > Date Range	A
85	Excel	Which filter option is used to filter data based on cell color or font color?	Filter by Color	Custom Filter	Text Filter	Number Filter	A
86	Excel	The PMT function in Excel is used to:	Calculate the present value of an investment	Calculate the future value of an investment	Compute the periodic payment needed to repay a loan	Calculate the total payment over time	C
87	Excel	_____ represent a dynamic, cornerstone, better decision making data management and analysis tool in EXCEL	Pivot Tables	Data Tables	Solver	Goal Seek	A
88	Excel	When to use Pivot Tables	For Large Data sets	Exploratory Analysis	Reporting	All	D
89	Excel	_____ are interactive visual filters.	Slicers	Solver	Flash fill	Drill Down	A
90	Excel	When did the concept of Pivot Tables first emerge?	1960s	1970s	1980s	1990s	C
91	Excel	What is the purpose of refreshing a Pivot Table?	To change its formatting	To update it with the latest data	To delete it from the worksheet	To apply conditional formatting	B
92	Excel	Which aspect of design and formatting plays a crucial role in the effectiveness of charts?	Data labels	Gridlines and axes	Chart colors and themes	Legend placement	C
93	Excel	Which field type is used for custom calculations based on existing fields in a Pivot Table?	Value Fields	Label Fields	Calculated Fields	Summary Fields	C
94	Excel	What is the primary function of the Chart Wizard (Pivot Chart) in Excel?	To create charts from Pivot Tables	To format text in charts	To add data labels to charts	To delete existing charts	A
95	Excel	When creating a Pivot Table why is it important for the source data to include column headers?	To allow for automatic aggregation	To help Excel recognize field names accurately	To enable sorting and filtering	To apply conditional formatting	B
96	Excel	What is the purpose of applying conditional formatting in a Pivot Table?	To change the font size	To highlight cells based on specified rules	To create a chart from the table	To sort the data	B
97	Excel	We can use the feature of Custom Conditional formatting based on a _____	Value Fields	Formula	Both	None	B
98	Excel	The data in a PivotTable cannot be changed as it is a summarized view of other data.	TRUE	FALSE			A
99	Excel	Excel offer upto _____ sort levels.	Three	Four	Thirty-Six	Sixty-Four	D
100	Excel	In Advanced Filter Criteria listed on the same row work with the _____	OR logic	AND logic	XOR logic	XAND logic	B
101	Excel	Which type of _____ are used to display trends over time.	Line charts	Bar charts	Column charts	Any	A
102	Excel	IRR function represents	The internal rate of return for a series of cash flows	The interest rate of return for a series of cash flows	The internal return of rate for a series of cash flows	Any information	A
103	Excel	Goal Seek is a powerful tool for finding the _____ needed to achieve a specific goal	input value	output value	data	Any	A

Q#	Topic	Question Description	Option A	Option B	Option C	Option D	Correct Option
104	Excel	Data Tables allow you to perform a one-variable or two-variable analysis of a formula	Goal Seek	Solver	Data Tables	Pivot Tables	C
105	Excel	By using Goal Seek, we can quickly determine _____ we are required to achieve	the source	the target	Both Source & target	None	B
106	Excel	Scenario Manager in Excel is particularly useful for	Organizing data in a structured manner	Creating and comparing different scenarios based on various input values	Calculating financial functions	Sorting data based on specific criteria	B
107	Excel	Which financial function in Excel calculates the future value of an investment?	PV	FV	NPV	IRR	B
108	Excel	What is the purpose of building a financial model in Excel?	To perform basic calculations in a spreadsheet	To create data visualizations	To evaluate investment opportunities and conduct financial analysis	To sort and filter data efficiently	C
109	Excel	Which Excel tool allows you to create and compare different scenarios based on various input values?	Goal Seek	Scenario Manager	Data Tables	Pivot Tables	B
110	Excel	What is the primary purpose of Ms-Excel in accounting finance, and data analysis?	Create graphics	Edit images	Analyze numerical and financial data	Write documents	C
111	Excel	What is the key advantages of using Absolute Cell References in Excel?	They adjust when copied to another location	They stay fixed regardless of copying	They are not use in calculations	They format data automatically	B
112	Excel	Which Excel feature allows you to restrict input to specific criteria in a cell?	Data Validation	Conditional Formatting	Flash Fill	AutoFill	A
113	Excel	_____ automates data transformations based on detected patterns.	AutoFill	Formatting	Copy	Flash Fill	D
114	Excel	_____ enables the quick population of cells with patterns.	Conditional Formatting	AutoFill	Flash Fill	Paste	B
115	Excel	Conditional formatting introduces an intelligent layer to data visualization.	TRUE	FALSE			A
116	Excel	_____ enables you to automatically highlight cells that meet criteria, making key insights easily discernible.	Conditional Formatting	Formatting	AutoFill	Flash Fill	A
117	Excel	Which tab contains the feature 'Conditional Formatting'?	Data Tab only	Home Tab only	Both A & B	None	B
118	Excel	To rotate text for better fit, use the dropdown and choose an angle.	Wrap Text	Indentation	Orientation	Organization	C
119	Excel	Maintaining consistency in formatting is essential for professional-looking worksheets.	Format as Table	Pivot Table	Data Table	Cell styles and themes	D
120	Excel	_____ quickly converts a range of cells to a table with its own style.	Format as Table	Cell styles and themes	Pivot Table	Data Table	A
121	Excel	_____ combine and center the contents of the selected cells in a new larger cell.	Wrap Text	Merge & Center	Paste Special	Text to Column	B
122	Excel	Which tab is used to access cell alignment and orientation options in excel?	Home	Insert	Format	View	A
123	Excel	What does filtering allow you to do in a table?	Display specific data based on chosen criteria	Add new rows to the table	Change the table style	Convert the table back to a range	A
124	Excel	How can you merge and center cells in Excel?	Format Tab > Merge Cells	Home Tab > Merge & Center dropdown	Right-click on cells and choose "Merge"	Press CTRL + M on the keyboard	B
125	Excel	Default row height & width of a cell?	15.43 & 8.15	8.15 & 15.43	15 & 8.43	8 & 15	C
126	Excel	Total rows & columns of a worksheet are _____	1000000 & 16000	10000 & 16000	1040000 & 16300	1048576 & 16384	D
127	Excel	=\$A\$1 is the example of _____	Relative References	Absolute References	Mixed References	Natural Cell Reference	B
128	Excel	What is the purpose of the Total Row in a table?	It provides a designated row for aggregations	It adds a new row at the bottom of the table	It sorts data in ascending or descending order	It applies conditional formatting to the table	A
129	Excel	Which formatting technique is used to automatically highlight cells that meet certain criteria?	Number Formatting	Date and Time Formatting	Conditional Formatting	Cell Alignment and Orientation	C
130	Excel	What does the NOW function in Excel provide?	The current date	The current time	The current date and time	The end of the month based on a given date	C
131	Excel	Which logical function in Excel checks if all conditions are true?	AND	OR	IF	NOT	A
132	Excel	Which error handling function in Excel replaces errors with a specified value?	ISERROR	IFERROR	ISIFERROR	LOOKUPERROR	B
133	Excel	Which function helps to search for a value in the leftmost column of a table and return a corresponding value from a specified column	HLOOKUP	VLOOKUP	LOOKUP	GETLOOKUP	B
134	Excel	Which Excel function is used for calculating periodic loan payments?	SUM	PV	FV	PMT	D

Q#	Topic	Question Description	Option A	Option B	Option C	Option D	Correct Option
135	Excel	Performing straightforward calculation i.e. =A1+B1 is an _____	Arithmetic calculation	Math & Trig Function	Sum Function	Relative Cell Reference	A
136	Excel	Which of the following steps involved in created a named range?	Select cell range> Insert tab> Name range> Enter name	Select cell range> Insert Tab > Formula> Create table name	Select cell range> Formula tab> Create from selection	Select cell range> Home > Format as table > Type name	A
137	Excel	How do you adjust column widths and row heights in Excel?	Use the "Format" tab in the Home tab	Drag column borders or hover over row boundaries	Apply cell styles from the Cell Styles gallery	Use the "Merge & Center" option	B
138	Excel	Suppose you have separate sheets for each quarter, and you want to find the total revenue for the year. You can select a cell on a summary sheet and use a _____ to add the revenue from each quarter's sheet.	Concatenate function	Consolidate function	Copy & Paste	SUM function	D
139	Excel	Excel provides a powerful built-in tool called _____ for combining data from multiple sheets.	Copy & Paste	Concatenate	Consolidate	SUM function	C
140	Excel	Choose the correct function argument to add up values from A1 to A10.	=SUM[A1:A10]	=SUM(A1:A10)	=SUM{A1:A10}	=A1:A10	B
141	Excel	What are the functions help to find the smallest and largest value from a selected cell range?	MIN & MAX	MINIMUM & MAXIMUM	Smallest & Largest	Lowest & Highest	A
142	Excel	Which category of function helps to make decisions based on specific conditions.	Lookup Function	Decision Function	Text Function	Logical Function	D
143	Excel	AND and OR functions use for?	combine 2 conditions only	combine multiple conditions	Only A	Both A & B	B
144	Excel	Which syntax is correct to express - If the value in cell B2 is greater than 100, the formula returns "Above Target"; otherwise, it returns "Below Target."	=IF(B2>100, "Above Target", "Below Target")	=IF(B2<100, "Above Target", "Below Target")	=IF(B2>=100, "Above Target", "Below Target")	=IF(B2>100, "Below Target", "Above Target")	A
145	Excel	The _____ function extracts characters from the beginning of a text.	=LEN()	=RIGHT()	=LEFT()	=TEXT()	C
146	Excel	_____ calculates the end of the month based on a given date.	EOMONTH Function	EMONTH Function	MONTH Function	ENDMONTH Function	A
147	Excel	The formula calculates the number of days between the dates in cells B2 and C2.	=DATE(B2,C2,"D")	=DATEDIF(B2, C2, "D")	=DIFF(B2,C2,"D")	=DIFFDATE(B2,C2,"D")	B
148	Excel	_____ calculates the net present value of cash flows.	PV Function	FV Function	NPV function	PMT Function	C
149	Excel	Syntax of VLOOKUP() Function?	=VLOOKUP (lookup_value, table_array, [col_index_num], range_lookup)	=VLOOKUP (lookup_value, [table_array], col_index_num, range_lookup)	=VLOOKUP ([lookup_value], table_array, col_index_num, range_lookup)	=VLOOKUP (lookup_value, table_array, col_index_num, [range_lookup])	D
150	Excel	Choose odd one out.	=IF()	=LEN()	=AND()	=OR()	B
151	Excel	When consolidating data in Excel, what does the "table_array" refer to?	The range of cells containing the data to be consolidated	The function used for consolidation	The target cell where the total will appear	The range of cells used for formatting	A
152	Excel	What does the LEN function in Excel calculate?	The average value of a range	The maximum value in a range	The length of a text string	The total sum of a range	C
153	Excel	SUMIF function in Excel Helps	to count the number of cells that meet a specific condition	to sum values based on a single specified condition	to count cells based on multiple criteria	to sum values based on multiple criteria	B
154	Excel	Which function counts the number of cells that meet a specific condition?	=COUNT()	=COUNTA()	=COUNTIF()	=COUNTIS()	C
155	Excel	Which function is used to count the number of cells that meet one or more specified condition within a range?	=COUNTIFS()	=COUNTIF()	=SUMIF()	=SUMIFS()	A
156	Excel	The _____ function calculates total revenue for a specific product?	=SUM()	=COUNTIF()	=SUMIF()	=SUMIFS()	C
157	Excel	Suppose you have a sales dataset with product names (in Column A) and corresponding revenue (in Column B). You are requested to find the total revenue for "Product A". Which function argument you would like to use?	=SUMIF(B1:B100, "Product A", A1:A100)	=SUMIF(A1:A100, "Product A", B1:B100)	=SUMIF(A1:A100, A1, B1:B100)	=SUMIF(B1:B100, B1, A1:A100)	B
158	Excel	What is the purpose of using SUMIFS() function?	allows you to sum values based on multiple criteria.	allows you to sum values based on a criteria.	allows you to count values based on multiple criteria.	allows you to count values based on a criteria.	A
159	Excel	When using the COUNTIFS function, how many criteria can be applied simultaneously?	Only one	Two	Three	Unlimited	D
160	Excel	What happens if the [num_chars] argument in the RIGHT() function is greater than the length of the text string?	will return last character	will return first character	will return the entire text string	will return blank	C
161	Excel	Which function removes the leading and trailing spaces from a text String?	REMOVE()	TRIM()	REPLACE()	FIND()	B
162	Excel	Which function helps you find the position of a specific character or substring within a text string?	SEARCH	FIND()	POSITION()	LEN()	A
163	Excel	Syntax of SUBSTITUTE() Function.	=SUBSTITUTE(value, old_value, new_value, [instance_value])	=SUBSTITUTE(text, new_text, old_text, [instance_num])	=SUBSTITUTE(text, find_text, replace_text, [instance_num])	=SUBSTITUTE(text, old_text, new_text, [instance_num])	D

Q#	Topic	Question Description	Option A	Option B	Option C	Option D	Correct Option
164	Excel	_____ allows you to set rules for the type and range of data that can be entered into cells.	Validation rule	Data Validation	Cell protection	Conditional formatting	B
165	Excel	Which data validation option would you use to create a drop-down list in a cell?	Text length	Whole number	List	Date	C
166	Excel	What does the Ignore blank checkbox do in the Data Validation settings?	Allows cells to contain any text	Ignores validation rules for blank cells	Allows formatting of blank cells	Requires non-blank cells to meet validation criteria	B
167	Excel	How can you prevent duplicate entries in a column using data validation?	Use the List option with a range that does not include duplicates	Use the Whole number option with a condition of unique	Use the Custom option with the formula =COUNTIF(A:A, A1)<=1	Use the Text length option with a maximum length set to 1	C
168	Excel	How can you provide a message to users when they select a cell with data validation applied?	Use the Input Message tab in the Data Validation settings	Apply conditional formatting to the cell	Create a comment in the cell	Use the Error Alert tab in the Data Validation settings	A
169	Excel	When using Goal Seek in Excel, which value is typically set as the "Set Cell"?	The input value you want to find	The target value you want to achieve	The output value you want to calculate	The formula cell	D
170	Excel	As aid in decision-making for investment opportunities, we can use _____	What-If Analysis tools	financial functions	tools and financial functions	None	C
171	Excel	Which tool in EXCEL enables a meticulous analysis of how variations in two input variables can influence financial outcomes.	Scenario Manager	Data Tables	Solver	All	B
172	Excel	Tool(s) allows/allow professionals to pinpoint specific inputs required to achieve predefined financial goals and create and compare scenarios based on diverse input values, respectively	Goal Seek	Scenario Manager	Goal Seek and Scenario Manager	one or two variable(s) Data Table	C
173	Excel	What-If Analysis tools help in determining _____	optimal investment strategies	evaluating loan options	projecting cash flows	All	D
174	Excel	What is macro in Excel?	A type of mathematical formula	Sets of instructions to automate tasks	A type of chart in Excel	A shortcut key for navigation	B
175	Excel	Macros can be stored in locations _____	The workbook we are using	Our Personal Macro Workbook (which by default is hidden from view)	either of two locations	None	C
176	Excel	A _____ file extension represents macro enabled workbooks.	.xlsx	.xlsm	.xls	All	B
177	Excel	Which tab do you need to enable in Excel to access Developer tools for macros?	File Tab	Data Tab	Review Tab	Developer Tab	D
178	Excel	What is the first step in recording a macro?	Assigning a shortcut key	Naming the macro	Clicking on "Record Macro"	Enabling the Developer tab	C
179	Excel	Which type of macro is more suitable for complex and customized automation?	Recorded Macros	VBA Macros	Complex Macros	Basic Macros	B
180	Excel	What is one of the key advantages of using VBA Macros over Recorded Macros?	VBA Macros can perform more complex and customized automation	VBA Macros are faster to execute	VBA Macros are more stable	All	D
181	Excel	What is one of the benefits of using macros in financial modeling?	They make the spreadsheet colorful and visually appealing	They reduce human error and save time	They can be used for creating pivot tables	They are only useful for basic calculations	B
182	Excel	What is the primary objective of a Recorded Macro?	To create visualizations	To perform complex calculations	To generate random data	To automate a series of actions in Excel	D
183	Excel	Which programming language is associated with creating complex macros in Excel?	VBA	Python	C++	Java	A
184	Excel	What is the purpose of running a macro in Excel?	To execute the series of recorded instructions	To edit the recorded actions	To save the macro to a file	To delete the macro from the workbook	A
185	Excel	When recording a macro, what should you do if you want to assign a shortcut key?	It is not possible to assign a shortcut key to a recorded macro	Select the option before starting the recording process	We can only assign shortcut keys to VBA macros	Assign the shortcut key after stopping the recording process	B
186	Excel	How can we enable the Developer tab in Excel?	It is always enabled by default	By clicking on the "File" tab and selecting Options	By pressing the F12 key	By right-clicking on a cell and selecting "Developer Options"	B
187	Excel	What is the significance of macros for Chartered Accountants?	They enhance creativity in financial reports	They automate repetitive tasks, ensuring accuracy and efficiency	They are only useful for basic calculations	They can replace the need for financial analysis software	B
188	Excel	Types of Macros are _____	Two	Three	Four	Any	A
189	Excel	A macro records our mouse clicks and keystrokes while we work and play them back later.	TRUE	FALSE			A
190	Excel	In Macros Cell Referencing Mode(s) is/are _____	Absolute reference mode	Relative reference mode	Both Absolute reference mode & Relative reference mode	None	C
191	Excel	In the formula =LEFT(A1, 5), what does "5" represent?	The position to start searching	The length of the text string	The position from which to start extraction	The number of characters to extract	D
192	Excel	What does the LEN function return in excel if the text string is empty?	#VALUE!	0	#NUM!	#N/A	B
193	Excel	_____ is a versatile spreadsheet application that allows you to organize, analyze, and manipulate numerical and financial data.	Microsoft Word	Microsoft Excel	Microsoft PowerPoint	Microsoft Access	B

Q#	Topic	Question Description	Option A	Option B	Option C	Option D	Correct Option
194	Excel	_____ allows financial analysts to summarize and analyze large datasets with ease.	PivotTable	Format as table	Conditional Formatting	Cell styles and themes	A
195	Excel	Excel is used to create financial statements, such as income statements and _____, by organizing transaction data and applying formulas for accurate calculations.	Sheets	worksheets	balance sheets	None of the above	C
196	Excel	Which version of excel allows users to access it across various devices and platforms.	Excel Online	Excel for macOS	Excel for Windows	Microsoft 365 (formerly Office 365)	D
197	Excel	Default workbook name is _____	Excel1	Book1	Sheet1	File1	B
198	Excel	_____ is a collection of one or more worksheets, equivalent to a file that you can save and open in Excel.	workbook	worksheet	cell	File	A
199	Excel	The intersection points of rows and columns which serve as the building blocks of an Excel worksheet, containing data, text, formulas, or functions are called as _____	worksheet	workbook	cell	rows & Columns	C
200	Excel	Suppose you've entered "January" in cell A1 to represent the first month. Now, you can quickly extend the series to cover the entire year, saving you the time and effort of manually typing out each month. What you will do?	Fill > Series	AutoFill	Flash Fill	Vlookup()	B
201	Excel	What is the short cut to activate Flash Fill?	CTRL+C	CTRL+V	CTRL+E	CTRL+F	C
202	Excel	Which is/are Number format of excel?	General	Number	Currency	All of the above	D
203	Excel	An absolute reference denotes by which symbol?	\$	@	#	!	A
204	Excel	Which of the following is a valid name for a named range in Excel?	2024_Sales	2024-Sales	2024 Sales	2024*Sales	A
205	Excel	What does VLOOKUP Stands for	Vertical Lookup	Value Lookup	Both	None	A
206	Excel	Index Function in Excel allows to fetch a specific Value from _____	a Table	a Range of Data	an Array	All	D
207	Excel	Why is the combination of INDEX and MATCH functions considered powerful for lookup operations	For precise retrieval of specific data points within a dataset	They provide flexible lookup capabilities	To dynamically lookup and retrieve data based on condition	All	D
208	Excel	When using VLOOKUP/HLOOKUP, what does the [range_lookup] set to true mean argument	An exact match is required	An approximate match is required	the number of matches	It specifies the column number/row number	B
209	Excel	What Role does the MATCH function play in EXCEL	It returns the relative position of the lookup value in the range.	It returns the value being looked up.	It returns the result of a mathematical operation	It returns the average of a range of values.	A
210	Excel	VLOOKUP function is useful _____	When data is organised in Vertical Column	When data is organised in Horizontal Rows	When data is unorganised	None of the above	A
211	Excel	Which function allows you to fetch a specific value from a table or range of data in Excel?	VLOOKUP	HLOOKUP	INDEX	MATCH	C
212	Excel	In the INDEX and MATCH combination, what does INDEX return if the [column_num] argument is omitted?	The entire column.	The entire row.	An error.	A blank cell.	B
213	Excel	What does the [match_type] argument control in the MATCH function?	The size of the range.	The type of data to search for.	The type of match to be performed.	The number of matches.	C
214	Excel	Which lookup function should we use when dealing with data organized in horizontal rows	VLOOKUP	HLOOKUP	INDEX	MATCH	B
215	Excel	In the formula =INDEX(A1:D100, MATCH("Product B", A1:A100, 0), MATCH("Q2", A1:D1, 0)), what does "Product B" represent?	The lookup value in the vertical column.	The lookup value in the horizontal row.	The range of cells to search.	The [column_num] argument.	A
216	Excel	Which function helps us to find the position of a specific character or substring within a text string.	SEARCH	FIND	SUBSTITUTE	REPLACE	A
217	Excel	Lookup functions are _____ of efficient financial analysis	backbone	skills	improved accuracy	speed	A
218	Excel	INDEX provides a flexible approach to fetch values based on specified criteria, while _____ focuses on locating specific values within a dataset.	INDEX, MATCH	MATCH, INDEX	INDIRECT, MATCH	MATCH, XLOOKUP	A
219	Excel	Suppose we have a Table with Product Name in Column A and their corresponding prices in Column B, to find price of Product A (a specific product), we use _____	=VLOOKUP("Product A",A1:B100, 2, False)	=VLOOKUP("Product A", A1:B100, 2, True)	Any	None	A
220	Excel	What is the purpose of sorting	To arrange data alphabetically	To filter out unwanted information	To organize data in a specific order	To perform complex calculation	C
221	Excel	Which option is crucial for maintaining data integrity and accuracy in Excel?	Sorting data	Protecting worksheets	Filtering data	Password protecting workbooks	B
222	Excel	What is the purpose of protecting a worksheet in Excel?	Highlight specific cells	View specific subsets of data based on defined criteria	To restrict unauthorized access and modifications	To change the formatting of the worksheet	C

Q#	Topic	Question Description	Option A	Option B	Option C	Option D	Correct Option
223	Excel	When applying filters in Excel, what does it allow you to do?	Highlight specific cells	View specific subsets of data based on defined criteria	Delete rows and columns	Change font colors	B
224	Excel	When protecting a worksheet, what can you set to enhance security?	A username	A password	A color code	A font style	B
225	Excel	In Excel, what is the significance of password protecting a workbook?	It allows you to change the workbook's formatting.	It prevents anyone from viewing the workbook.	It restricts unauthorized access to the workbook.	It deletes the contents of the workbook.	C
226	Excel	Which Excel feature allows you to protect an entire workbook with a password?	Workbook Protection	Workbook Lock	Workbook Security	Workbook Encryption	A
227	Excel	Protecting a worksheet involves _____	Protecting Cells	Protecting Worksheet	Both Protecting Cells & Protecting Worksheet	Protecting Workbook	C
228	Excel	To defend against dangers, we need to use excel worksheet protection that includes _____	Locked	Hidden	Both Locked & Hidden	Unlocked	C
229	Excel	_____ are Graphical representation of Worksheet DATA	Pictures	Charts	Smart Art	Map	B
230	Excel	_____ option is only style choice that completely prevents the person using the workbook from entering invalid data	Warning	Information	Stop	Quit	C
231	Excel	Sorting could be from _____	Top to Bottom	Left to Right	Both Top to Bottom & Left to Right	None	C
232	Excel	Line Chart is used for _____	compare data values	trends over time	Distribution	All	D
233	Excel	Web queries allow user to query data from specific _____, and retrieve information directly in EXCEL	world wide web	internet	intranet	Any	D
234	Excel	What does the SEARCH function return if the specified text is not found within the text string?	#VALUE!	REF!	#N/A	#NUM!	A
235	Excel	When configuring data validation, what is the purpose of an input message?	It displays an error message if an incorrect value is entered	It guides users when they select the cell	It provides an additional layer of validation	It allows users to enter any type of data	B
SECTION: TAXATION & COMPLIANCE							
236	Taxation & Compliance	What is the primary purpose of E-PAN registration in India?	To apply for a passport	To obtain a unique identification number	To streamline the taxation process	To access government healthcare services	C
237	Taxation & Compliance	Which of the following is required to apply for E-PAN?	Aadhar Card	Voter ID	Driving Licence	Passport	A
238	Taxation & Compliance	Which website should you visit to initiate income tax registration?	[link removed]	[link removed]	https://www.irs.gov	https://www.taxportal.in	A
239	Taxation & Compliance	What is the last step to complete income tax registration?	Confirm OTP	Provide Aadhar number	Set a personalized message	Click on Cancel	A
240	Taxation & Compliance	Who is Eligible for ITR-1 filling ?	Individuals with income from Business and Profession	Individuals with income from Salary One House Property and Other Sources Excluding winnings from Lottery and Income from Race Horses	Non Resident Individual	Individual with agricultural income exceeding 5000	B
241	Taxation & Compliance	AIS Stands for	Annual Information Statement	Assessee's Information Statement	Accounting Information Statement	None of the above	A
242	Taxation & Compliance	Which of the following is a Popular Tax Software used for Income tax Filing ?	COMPUTAX SOFTWARE	WINMAN SOFTWARE	CA-ERP	All of these	D
243	Taxation & Compliance	Who is responsible for generating the e-Way Bill?	The consignee	The Transporter	The consignor (supplier)	The buyer	C
244	Taxation & Compliance	What does GST TRN stand for?	Goods and Services Tax Transaction Reference Number	Goods and Services Tax Taxpayer Registration Number	Goods and Services Tax Transaction Reporting Number	Goods and Services Tax Refund Number	B
245	Taxation & Compliance	What information is typically required when applying for a GST TRN?	Passport number and date of birth	Business name, address and PAN (Permanent Account Number)	Driver's license and vehicle registration details	Educational qualifications and employment history	B
246	Taxation & Compliance	Which of the following statements is correct regarding the GST registration process in India?	GST registration is mandatory only for businesses with an annual turnover exceeding 10 lakhs	A business must apply for GST registration within 30 days of crossing the threshold limit of 40 lakhs in turnover	An existing VAT or service tax registered business must obtain a separate GST registration	The GST registration process requires only the submission of a PAN card and proof of address	B
247	Taxation & Compliance	Which of the following is the official website for GST registration in India?	www.gstindia.gov.in	www.gst.gov.in	www.india.gov.in/gst	www.gstregistration.in	B
248	Taxation & Compliance	What does "PPOB" stand for in GST registration?	Principal Place of Business	Primary Point of Business	Professional Place of Business	Personal Place of Business	A
249	Taxation & Compliance	What is the purpose of the HSN or SAC codes in the "Goods and Services" section?	To verify the business	To calculate taxes	To classify products and services	To provide contact information	C
250	Taxation & Compliance	Which of the following statements is TRUE regarding filing a Nil Tax Return under GST?	A Nil Tax Return must be filed even if there are no transactions or no tax liability during the tax period	Filing a Nil Tax Return is optional and only required if there are transactions but no tax liability	Nil Tax Returns are filed using a separate form that is not available on the GST portal	Businesses with zero tax liability are exempt from filing any GST returns	A
251	Taxation & Compliance	Why is it important to file a Nil Return under GST even when there are no transactions to Report?	To receive a refund from the government	To avoid paying a late filing fee	To maintain compliance with tax regulations	To report exempt transactions	C

Q#	Topic	Question Description	Option A	Option B	Option C	Option D	Correct Option
252	Taxation & Compliance	When is a GST Nil Return typically required to be filed?	Weekly	Monthly	Quarterly	Half Yearly	B
253	Taxation & Compliance	What is the primary purpose of filing GSTR-1 under the Goods and Services Tax (GST) system?	To report the inward supplies of goods and services	To declare the output tax liability and claim input tax credits	To provide details of outward supplies (sales) made during the tax period	To report the details of tax payments made to the government	C
254	Taxation & Compliance	In GSTR-1 B2C large applicable for	Inter-state outward supplies to an unregistered person having an invoice value greater than 250000	Intra-state outward supplies to an unregistered person having an invoice value greater than 250000	Intra-state outward supplies to an unregistered person having an invoice value greater than 500000	None of above	A
255	Taxation & Compliance	What is the purpose of Input Tax Credit (ITC) in GSTR-3B?	To claim a refund from the government	To report GST paid on outward supplies	To offset GST paid on purchases against GST collected on sales	To calculate penalties for late filing	C
256	Taxation & Compliance	Which section of GSTR-3B is used to report the summary of inward supplies subject to the reverse charge mechanism (RCM)?	Section A: Outward Supplies and Tax Liability	Section B: Inward Supplies Attracting RCM	Section C: ITC Claimed and Reversed	Section D: Tax Liability and ITC Reconciliation	B
257	Taxation & Compliance	How can you import data into the GST Offline Tool?	Manually enter data only	Import data only from Excel	Both manually enter data and import data from Excel	None of the above	C
258	Taxation & Compliance	What is the primary purpose of registering in EPF	Providing unemployment benefits	Offering health insurance to employees	Promoting employee savings for retirement	Funding employee training programs	C
259	Taxation & Compliance	How many digits does the UAN (Universal Account Number) consist of?	16	11	12	14	C
260	Taxation & Compliance	What is the primary purpose of ESI registration?	Providing unemployment benefits	Promoting employee savings for retirement	Offering health insurance to employees	Funding employee training programs	C
SECTION: ACCESS & SQL							
261	Access & SQL	What is the primary key used for in a table?	To sort the data	To uniquely identify records	To connect forms	To format text	B
262	Access & SQL	What does a query allow you to do in Access?	Sort and filter data	Enter new records	Print data	Design forms	A
263	Access & SQL	What is the file extension for an Access database?	.xls	.accdb	.docx	.mdb	B
264	Access & SQL	Which of the following is not an object in Access?	Table	Spreadsheet	Query	Form	B
265	Access & SQL	How can you enforce referential integrity between two tables?	Create a primary key	Use a form	Create a relationship between the tables	Create a query	C
266	Access & SQL	In Access, what is the purpose of a form?	To display and enter data	To store large data	To generate reports	To perform calculations	A
267	Access & SQL	Which view is used to create or modify a table structure in Access?	Datasheet View	Design View	Report View	Form View	B
268	Access & SQL	Which of the following is NOT a valid data type in Access?	AutoNumber	Currency	Graphic	Yes/No	C
269	Access & SQL	What is the purpose of the Report object in Access?	To view or print data in a formatted way	To create tables	To input data	To delete data	A
270	Access & SQL	In an Access query, which operator is used for wildcard searches?	%	&	#	*	D
271	Access & SQL	Which short cut key is use to switch between field name and field property in table design?	Ctrl+Q	F6	Ctrl + Enter	Alt+Q	B
272	Access & SQL	What is the maximum number of characters for a Short Text field in Access?	50	100	255	512	C
273	Access & SQL	Which object in Access retrieves specific data by filtering based on certain criteria?	Table	Form	Report	Query	D
274	Access & SQL	How can you create a one-to-many relationship between two tables in Access?	Connect two forms	Use a primary key and foreign key	Use queries	Use macros	B
275	Access & SQL	What is the default view for entering data into a table in Access?	Form View	Datasheet View	Report View	Design View	B
276	Access & SQL	What is the purpose of the AutoNumber data type?	To enter numeric data	To create a unique identifier automatically	To generate random numbers	To manage large numbers	B
277	Access & SQL	Which part of the database stores the actual data in Access?	Reports	Queries	Tables	Forms	C
278	Access & SQL	Which is not a type of join in Access?	Inner Join	Outer Join	Cross Join	Self Join	C
279	Access & SQL	How can you prevent duplicate records in an Access table?	Use a primary key	Use a form	Run a query	Use a report	A
280	Access & SQL	Which section of an Access report is used for page headers?	Report Header	Group Header	Page Header	Detail	C
281	Access & SQL	What is the maximum number of fields that can be included in an Access query?	100	255	512	1000	B
282	Access & SQL	Which key is used to navigate between records in Access?	F1	Tab	F11	Arrow Keys	D
283	Access & SQL	In Access, a "form" is typically used to:	Input, modify, and display data	Summarize data	Print data	Store large amounts of data	A
284	Access & SQL	In which section of an Access report would you place totals or summaries?	Page Footer	Report Footer	Group Header	Detail	B

Q#	Topic	Question Description	Option A	Option B	Option C	Option D	Correct Option
285	Access & SQL	What is the relationship between a primary key and a foreign key in Access?	One-to-One	One-to-Many	Many-to-Many	No relationship	B
286	Access & SQL	Which operator is used to select records with values within a specified range in Access queries?	LIKE	BETWEEN	IN	IS NULL	B
287	Access & SQL	Which function can be used in queries to perform calculations in Access?	COUNT	SUM	AVG	All of the above	D
288	Access & SQL	In a table, a primary key:	Can be left blank	Must contain unique values	Can contain duplicate values	Can be a calculated field	B
289	Access & SQL	In Access, what does the "Yes/No" data type store?	Numeric values	True/False or Boolean values	Long text values	Dates	B
290	Access & SQL	What is a parameter query in Access?	A query that asks for input before execution	A query that uses only pre-defined criteria	A query that runs automatically	A query that creates a report	A
291	Access & SQL	What is the purpose of the "Group By" clause in an Access query?	To sort the results	To summarize data	To format reports	To join tables	B
292	Access & SQL	How can you filter data in an Access table?	By using a macro	By using a filter option in the datasheet view	By creating a report	By using the navigation pane	B
293	Access & SQL	Which data type would you use to store large blocks of text in Access?	Short Text	Long Text	Number	OLE object	B
294	Access & SQL	What does SQL stand for?	Sequential Query Language	Structured Query Language	Standard Query Language	Simple Query Language	B
295	Access & SQL	Which SQL statement is used to retrieve data from a database?	GET	SELECT	RETRIEVE	SHOW	B
296	Access & SQL	What is the correct SQL keyword to select all columns from a table?	SELECT #	SELECT ALL	SELECT *	SELECT COLUMN	C
297	Access & SQL	Which SQL clause is used to filter the results of a SELECT query?	WHERE	HAVING	ORDER BY	FROM	A
298	Access & SQL	In SQL, which operator is used to search for a specific pattern?	IN	BETWEEN	LIKE	=	C
299	Access & SQL	Which SQL function is used to return the total number of rows in a table?	COUNT()	SUM()	MAX()	AVG()	A
300	Access & SQL	What is the correct SQL statement to retrieve all rows where the value of "Salary" is between 50,000 and 100,000?	SELECT * FROM Employees WHERE Salary LIKE 50000 AND 100000;	SELECT * FROM Employees WHERE Salary IN (50000, 100000);	SELECT * FROM Employees WHERE BETWEEN Salary 50000 AND 100000;	SELECT * FROM Employees WHERE Salary >= 50000 OR <= 100000;	C
301	Access & SQL	Which SQL clause is used to sort the result-set?	SORT BY	ORDER BY	GROUP BY	HAVING	B
302	Access & SQL	Which of the following file types can you import into Access?	Excel (.xlsx)	Text files (.txt or .csv)	XML files (.xml)	All of the above	D
303	Access & SQL	Which wizard in Access helps you import data from an Excel file?	Import Wizard	Excel Import Wizard	Data Connection Wizard	Spreadsheet Wizard	B
304	Access & SQL	When importing data from Excel into Access, what does Access do if the data contains an existing primary key?	Access will generate a new primary key	Access will ignore the primary key	Access will let you choose to append or replace the data	Access will create a new table	C
305	Access & SQL	What is the most common file format used when importing plain text data into Access?	.docx	.xlsx	.txt or .csv	.pdf	C
306	Access & SQL	What does the "Append" option do when importing data into an existing table in Access?	Deletes the existing data and replaces it with the new data	Adds the new data to the end of the existing table	Updates the existing data	Combines both tables into one new table	B
307	Access & SQL	Which of the following queries would be used to update existing records in a table?	Select Query	Crosstab Query	Make-Table Query	Update Query	D
308	Access & SQL	What type of query would you use to delete records from a table in Access?	Select Query	Crosstab Query	Delete Query	Append Query	C
309	Access & SQL	Which of the following is a calculated field in an Access query?	A field that uses arithmetic to combine values from other fields	A field that stores numeric data	A field that links two tables	A field that contains a foreign key	A
310	Access & SQL	Which of the following would be a logical operator used in Access query criteria?	SUM	COUNT	AND	MAX	C
311	Access & SQL	What does the "Control" in a form refer to?	A way to control access to the database	An object on the form, such as a text box or button	A setting for security permissions	None of the above	B
312	Access & SQL	What is the purpose of a subform?	To display a form within another form	To create reports	To manage databases	To enter large data	A
313	Access & SQL	In which view can you see live data as you modify your form?	Form View	Layout View	Design View	Datasheet View	B
314	Access & SQL	Which type of control can be used to display a calculation on a form?	Text Box	Combo Box	List Box	Option Group	A
315	Access & SQL	How can you add a combo box to a form?	Use the Combo Box Wizard	Drag it from the toolbox	Both a and b	None of the above	C
316	Access & SQL	Which view should you use to set the tab order for a form?	Form View	Layout View	Design View	Datasheet View	C
317	Access & SQL	What is the main function of a bound control on a form?	To store data temporarily	To link to data in the database	To display a calculation	None of the above	B
318	Access & SQL	Which event triggers when a user presses a key while the form has focus?	On Click	On Load	On Key Down	On Got Focus	C
319	Access & SQL	How do you ensure data validation in a form?	By using VBA code	By setting properties in the form's controls	By using validation rules	All of the above	D

Q#	Topic	Question Description	Option A	Option B	Option C	Option D	Correct Option
320	Access & SQL	Which form property is used to restrict the types of data a user can enter?	Input Mask	Format	Control Source	Record Source	A
321	Access & SQL	What is a report in MS Access used for?	Data input	Data analysis	Data presentation	Data deletion	C
322	Access & SQL	Which section of a report repeats for each record?	Report Header	Page Header	Detail	Page Footer	C
323	Access & SQL	What does a report's Detail section display?	Summary of data	Individual records	Report title	Page number	B
324	Access & SQL	What is the purpose of a Group Header in a report?	To summarize data	To label data groups	To display page numbers	To display the report title	B
325	Access & SQL	How can you sort records in a report?	Using the Sort & Group dialog box	By creating a query	Both a and b	None of the above	C
326	Access & SQL	What is the purpose of a report footer?	To display data summaries	To label data groups	To display the report title	To show page numbers	A
327	Access & SQL	How can you hide a control on a report?	By setting its Visible property to No	By deleting the control	By setting its Enabled property to No	By setting its Locked property to Yes	A
328	Access & SQL	Which event would you use to perform an action before a report prints?	On Load	On Open	On Close	On Print	D
329	Access & SQL	What is the main advantage of using a query as the Record Source for a report?	To filter records	To perform calculations	To combine data from multiple tables	All of the above	D
330	Access & SQL	How can you ensure that a report shows data from the most recent records only?	By sorting records in descending order	By filtering records in the query	By using the Top Values property in the query	All of the above	D
331	Access & SQL	How can you prevent a report from printing records that have a zero balance?	By using a filter in the query	By setting the Visible property of the Detail section to No	By using conditional formatting	All of the above	A
332	Access & SQL	Which option allows a report to display data from only the current year?	Filter	Query criteria	Sorting	Grouping	B
333	Access & SQL	Which report control can be used to display an embedded chart?	Image Control	OLE Object	Subreport	Text Box	B
334	Access & SQL	In Microsoft Access, when adding a new field in Layout View, where can you find the list of available fields to choose from?	In the Field List pane	In the Group, Sort, and Total pane	In the Property Sheet pane	In the Navigation Pane	A
335	Access & SQL	What is the main advantage of using Layout View when making modifications to a report layout?	It allows you to apply formatting styles easily.	It provides an exact preview of the printed report.	It enables you to add new fields directly.	It offers advanced filtering options.	B
336	Access & SQL	Which of the following SQL commands is used to retrieve data from a database?	SELECT	INSERT	DELETE	UPDATE	A
337	Access & SQL	Which SQL keyword is used to sort the result-set?	SORT BY	ORDER	ORDER BY	SORT	C
338	Access & SQL	Which SQL clause is used to filter the rows returned by a query?	WHERE	HAVING	ORDER BY	FROM	A
339	Access & SQL	Which SQL statement is used to insert new data into a database?	INSERT INTO	ADD NEW	ADD RECORD	INSERT NEW	A
340	Access & SQL	Which SQL statement is used to update data in a database?	MODIFY	UPDATE	CHANGE	SET	B
341	Access & SQL	Which clause is used to filter groups in SQL?	WHERE	GROUP BY	HAVING	ORDER BY	C
342	Access & SQL	What does the SQL JOIN clause do?	Combines rows from two or more tables based on a related column	Removes duplicates	Sorts data	Filters rows	A
343	Access & SQL	Which SQL statement is used to create a new table?	CREATE DATABASE	CREATE TABLE	CREATE INDEX	CREATE INEW TABLE	B
344	Access & SQL	Which SQL keyword is used to retrieve unique values?	DISTINCT	UNIQUE	DIFFERENT	SEPARATE	A
345	Access & SQL	Which command is used to remove a table from a database?	DELETE TABLE	DROP TABLE	REMOVE TABLE	ERASE TABLE	B
346	Access & SQL	Which SQL clause is used to group rows that have the same values?	GROUP BY	ORDER BY	WHERE	JOIN	A
347	Access & SQL	What is the purpose of the SQL ALTER TABLE statement?	To insert data into a table	To modify the structure of an existing table	To remove a table	To retrieve data from a table	B
348	Access & SQL	How can you retrieve data from multiple tables using SQL?	Using the SELECT command with JOIN	Using the SELECT command with UNION	Using the SELECT command with INTERSECT	All of the above	D
349	Access & SQL	Which SQL clause is used to limit the number of rows returned by a query?	LIMIT	TOP	ROWNUM	All of the above	D
350	Access & SQL	What will happen if you execute the following SQL query: DELETE FROM employees;?	Deletes the employees table	Deletes all records from the employees table	Deletes one record from the employees table	Deletes the first record from the employees table	B
351	Access & SQL	Which of the following is a DDL command?	SELECT	INSERT	CREATE	UPDATE	C
352	Access & SQL	What is the primary purpose of a macro in Microsoft Access?	To perform complex calculations	To automate repetitive tasks and procedures	To format reports	To create new tables	B
353	Access & SQL	Where can you create a new macro in Access?	In the Queries section	In the Forms section	In the Macros section of the Create tab	In the Reports section	C
354	Access & SQL	Which action in a macro is used to open a form or report?	OpenForm	RunQuery	SetVariable	OpenReport	A
355	Access & SQL	Which of the following is NOT a valid action in Access macros?	SendObject	PrintOut	RunCode	MessageBox	D

Q#	Topic	Question Description	Option A	Option B	Option C	Option D	Correct Option
356	Access & SQL	How can you run a macro in Access?	By pressing F5	By using the "Run" button in the Macro Designer	By selecting it from the Macros tab	By opening a report	B
357	Access & SQL	What is the purpose of the 'If' condition in an Access macro?	To execute actions based on a condition	To loop through a set of records	To apply formatting	To set default values	A
358	Access & SQL	Can macros in Access be used to interact with external data sources?	Yes, by using the 'SendObject' action	No, macros only interact with internal Access objects	Yes, by using the 'RunCode' action	No, macros are limited to internal data	A
359	Access & SQL	Which type of data is typically used as column headings in a Cross Tab Query?	Data types	Values from fields in the query	Calculated fields	Row headers	B
360	Access & SQL	In a Cross Tab Query, which part of the query design is used to specify how data should be aggregated?	Row Heading	Column Heading	Value Field	Criteria	C
SECTION: CASEWARE IDEA							
361	CaseWare IDEA	What is the primary function of CaseWare IDEA?	Data entry	Data analysis and auditing	Financial reporting	Project management	B
362	CaseWare IDEA	In CaseWare IDEA, what is the purpose of the "Field" function?	To manage user permissions	To define new data columns in a database	To create financial statements	To generate audit reports	B
363	CaseWare IDEA	Which tool in CaseWare IDEA helps in identifying unique records in a database?	Filter	Join	Duplicate Detection	Sort	C
364	CaseWare IDEA	Which one of the following extract option can't extract the records where the criteria is city="Kolkata" OR city="Mumbai"?	Key Value	Indexed	Direct	Criteria Property	B
365	CaseWare IDEA	To extract transactions that occurred on Sundays using date field in direct extraction of CaseWare IDEA, which function should you apply?	Dow()	Day()	Date()	DtoDays()	A
366	CaseWare IDEA	Without overriding the security feature of IDEA, which of the following type of field can be deleted?	Numeric	Editable Numeric	Virtual Numeric	Boolean	C
367	CaseWare IDEA	If the given syntax is @split(NAME, "", "", 1, 1), and the input string "AMIT KUMAR ROY", what is the output?	AMIT	KUMAR	ROY	KUMAR ROY	C
368	CaseWare IDEA	From which of the following window in CaseWare IDEA can you print the "Field Definition"?	Database Property	Project Property	Field Manipulation	Modify Field	C
369	CaseWare IDEA	Which of following feature can be used to extract random record sets to a new database?	Sampling	Stratification	Key Extraction	Duplicate Key	A
370	CaseWare IDEA	In CaseWare IDEA software, besides "Shared," what is another use of a project?	Individual	Remote	Collaborative	Integrated	A
371	CaseWare IDEA	What is the full form of CAAT?	Computerized Automated Audit Tools	Computer-Assisted Audit Techniques	Comprehensive Audit Analysis Technology	Centralized Audit and Assessment Tools	B
372	CaseWare IDEA	Which of the following is a limitation of using Excel as a CAAT tool?	Advanced statistical analysis capabilities	Userfriendly-interface for complex data modeling	High-level integration with other advanced audit software	Limited ability to handle large volumes of data	D
373	CaseWare IDEA	Which of the following is not a precaution when using CAATS?	Identify all the important fields that need to be accessed from the system	Correctly identify data to be audited	Perform substantive testing as required.	Running CAATs on a live production environment without prior testing	D
374	CaseWare IDEA	In CaseWare IDEA software, what does the term (project) refer to?	A set of financial statements being audited	A collection of audit standards and guidelines	An individual data analysis function	A structured file that contains all related data, files, and analysis work	D
375	CaseWare IDEA	Which of the following is not a valid tab of IDEA?	Analysis	View	Report	Smart Analyzer	C
376	CaseWare IDEA	What is a primary reason for using CAATs in auditing?	To efficiently analyze large volumes of data	To eliminate the need for auditor judgment	To completely replace manual audit procedures	To avoid documenting audit findings	A
377	CaseWare IDEA	What is the correct steps to create a project?	HOME TAB > PROJECT > CREATE	FILE TAB > CREATE > PROJECT	HOME TAB > CREATE > PROJECT	FILE TAB > PROJECT > CREATE	A
378	CaseWare IDEA	There are _____ types of Projects in IDEA.	One	Two	Three	Four	B
379	CaseWare IDEA	Which of following option to select to create a project in "My IDEA Document" folder?	Default Project	Managed Project	Root Project	Saved Project	B
380	CaseWare IDEA	"Project Overview and Library are not available in a shared project in CaseWare IDEA." - True or False?	TRUE	FALSE			A
381	CaseWare IDEA	Which one of following is not a valid extension of any of IDEA output object/file?	.IMD	.ILB	.ISS	.IRR	D
382	CaseWare IDEA	In which tab is the "Import" option is available in CaseWare IDEA?	File	Data	Home	Analysis	C
383	CaseWare IDEA	What is the full form of ODBC?	Open Database Connector	Online Database Communication	Open Database Connectivity	Oracle Database Command	C
384	CaseWare IDEA	Is AS400 a valid format for import in CaseWare IDEA?	YES	NO			A
385	CaseWare IDEA	Which of the following types of data cannot be imported directly into CaseWare IDEA?	Excel spreadsheets	PDF documents	Notepad files	Word Documents	D

Q#	Topic	Question Description	Option A	Option B	Option C	Option D	Correct Option
386	CaseWare IDEA	What is "Control Total in IDEA?	Last Line of a Database to view Total of fields.	Report View of Summarization.	A property of active Database to view total of a Field.	Extraction that provides the total column of extracted database.	C
387	CaseWare IDEA	Which of the following extract result in the same database like Autofilter of excel in IDEA?	Right Click on any Record > "Display All records Containing"	Data Tab > "Search Group"	Database Property > Criteria	All of the Above.	D
388	CaseWare IDEA	In CaseWare IDEA, which of the following is true regarding data import and export with Microsoft Access?	You can import data from Microsoft Access but cannot export data directly to Microsoft Access.	You can export data to Microsoft Access but cannot import data from Microsoft Access.	Both importing and exporting data to and from Microsoft Access are supported.	Neither importing data from Microsoft Access nor exporting data to Microsoft Access is supported.	C
389	CaseWare IDEA	Can you export selected columns of a database from CaseWare IDEA?	No, you can only export the entire database.	Yes, you can export selected columns by choosing the appropriate options during export.	No, IDEA does not support exporting data.	Yes, but only during export to an Excel format.	B
390	CaseWare IDEA	In CaseWare IDEA, where can you track deleted databases?	Data Management tab	Project Overview	History Property	Report Reader	B
391	CaseWare IDEA	In CaseWare IDEA, once records are sorted, you can revert to their original order using	undo feature	a unique identifier in database property, which can be used to restore the original order.	the "Revert" option in the database toolbar to return to the original order.	restore the original order using the "Sort Order" tab.	B
392	CaseWare IDEA	In CaseWare IDEA, in which type of field does the "Search" option not work?	Text	Date	Numerica	It works on all types of fields	C
393	CaseWare IDEA	We can extract blank records from a database using "Gap Detection" in IDEA. - True or False?	TRUE	FALSE			B
394	CaseWare IDEA	The extraction can be done in _____ different ways in IDEA.	One	Two	Three	Four	D
395	CaseWare IDEA	To find out all records from "Kolkata" city, which one of the following extraction can be applied?	Key Value	Indexed	Direct	All of the Above.	D
396	CaseWare IDEA	To append a new field in IDEA database, we can go to DATA tab.	File	Home	Data	Analysis	C
397	CaseWare IDEA	Which of the following window or interface can be used to write a function for direct extraction or appending fields?	Equation Editor	Expression Builder	Formula Builder	Script Editor	A
398	CaseWare IDEA	Which of the following function can be used to extract only the numbers from the string "INV_26510"?	FindOneOf()	Precno()	Similar Phrase()	JustNumbers	D
399	CaseWare IDEA	which symbol can be used as a function starter for custom functions in IDEA?	=	\$	@	#	D
400	CaseWare IDEA	To extract the records with highest sales amount of every product we can use _____ in IDEA.	Top Records Extraction	Summarization	Visual Connector	Something else	A
401	CaseWare IDEA	To calculate the total value of transactions per month using a date field in CaseWare IDEA without creating any new field, which option is useful?	Summarization	Stratification	Aging	Pivot Table	B
402	CaseWare IDEA	In the acronym Caseware IDEA, what does the "E" stand for?	Extraction	Exploration	Examination	Evaluation	A
403	CaseWare IDEA	In CaseWare IDEA, how can Benford's Law be used to detect anomalies in a database?	By comparing historical data trends with current financial data	By identifying deviations from the expected frequency distribution of leading digits	By assessing the growth rate of financial statements over multiple periods	By analyzing the correlation between different financial metrics	B
404	CaseWare IDEA	Which of the following digit is most likely to appear as the first digit in a dataset according to Benford's Law?	3	9	5	2	D
405	CaseWare IDEA	What is the primary purpose of applying Benford's Law in an audit using CaseWare IDEA?	To verify the accuracy of financial statements	To detect possible fraudulent activity or errors in the data	To ensure compliance with accounting standards	To evaluate the performance of financial management	B
406	CaseWare IDEA	Which of the following best describes a dataset that conforms to Benford's Law?	The first digits appear uniformly across all numbers	Higher digits are more frequent as the first digit	The frequency of first digits decreases logarithmically as the digits increase	The frequency of first digits is equally distributed across all digits	C
407	CaseWare IDEA	In which tab is the "Benford's Law" option is available in CaseWare IDEA?	File	Home	View	Non of the Above	D
408	CaseWare IDEA	Which sampling method in CaseWare IDEA is best used when you want to ensure each unit in your dataset has an equal chance of being selected?	Systematic Sampling	Random Sampling	Stratified Sampling	Cluster Sampling	B
409	CaseWare IDEA	In CaseWare IDEA, which sampling method involves selecting every nth item from a list after a random starting point?	Stratified Sampling	Cluster Sampling	Random Sampling	Systematic Sampling	D
410	CaseWare IDEA	When using the Stratified Sampling method in CaseWare IDEA, how does the software ensure that the sample is representative of different sub-groups within the data?	By dividing the population into sub-groups and sampling proportionally from each	By randomly selecting a sample from the entire dataset	By selecting every nth item from each sub-group	By clustering the data and sampling entire clusters	A
411	CaseWare IDEA	In CaseWare IDEA, when using Indexed Extraction, which of the following statements is true regarding extracting records based on numeric ranges?	You can directly extract records where a numeric field value is between two specified numbers, but you cannot use a "Not Between" condition.	You can use both "Between" and "Not Between" conditions directly in Indexed Extraction.	Indexed Extraction supports only "Not Between" conditions for numeric ranges, but not "Between" conditions.	Indexed Extraction allows "Between" conditions but requires custom scripting for "Not Between" conditions.	A

Q#	Topic	Question Description	Option A	Option B	Option C	Option D	Correct Option
412	CaseWare IDEA	What is the primary purpose of the "Aging" function in CaseWare IDEA?	To calculate the time elapsed since a record was last updated	To categorize transactions or balances into different periods	To assess the accuracy of transaction amounts by comparing them with historical data	To automate the process of updating records with new data	B
413	CaseWare IDEA	When using the "Aging" function in CaseWare IDEA, what is typically required as an input?	A date field to determine the aging periods	A list of predefined aging categories	A set of data transformation rules	An external database connection	A
414	CaseWare IDEA	What does the @REVERSE() function do in CaseWare IDEA?	It sorts the data in descending order.	It removes duplicate records from the dataset.	Reverses the order of characters in a string.	It reverses the order of records in a dataset.	C
415	CaseWare IDEA	What is the recognizable date format used in CaseWare IDEA?	DD/MM/YYYY	MMDDYYYY	DDMMYYYY	YYYYMMDD	D
416	CaseWare IDEA	What is the concatenation operator used in CaseWare IDEA?	+	&		#	A
417	CaseWare IDEA	What will be the result of the function GETAT(PAN, 4) in CaseWare IDEA, where PAN represents a string or text field?	The first 4 characters of PAN	The 4th character of PAN	The last 4 characters of PAN	The substring from the 4th character to the end of PAN	B
418	CaseWare IDEA	In CaseWare IDEA, what would be the result of the expression @BETWEEN(salary, 10000, 20000) = 0 in append field?	It returns True if the salary is between 10,000 and 20,000	It returns True if the salary is not between 10,000 and 20,000.	It returns the count of records where salary is between 10,000 and 20,000.	It returns the sum of salary values between 10,000 and 20,000.	B
419	CaseWare IDEA	To concatenate two IDEA databases into one database, which option should be used in CaseWare IDEA?	Merge	Join	Append	Compare	C
420	CaseWare IDEA	In CaseWare IDEA, which of the following options can be used to determine the change in the value of individual assets from the previous year?	Join	Trend Analysis	Compare	Append	C
421	CaseWare IDEA	Which of the following is not a valid operation in CaseWare IDEA?	Filtering records	Generating random sample	Visualizing data with pie charts	Performing real-time web scraping	D
422	CaseWare IDEA	What is the short cut key to "Validate and Exit" the Equation Editor window in IDEA?	Ctrl+E	Ctrl+V	Ctrl + U	Ctrl+F	C
423	CaseWare IDEA	Which of the following is NOT a type of join available in IDEA?	Inner join	Outer join	Left join	Cross join	D
424	CaseWare IDEA	In the context of key value extraction, what does the term "key" refer to?	A new index created on one or more fields to find unique values	The primary key of the data set	A field to specify the physical sorting order position of a record	The common field between 2 databases that are in use during extraction	A
425	CaseWare IDEA	During stratifying a date field in IDEA, which one of the following options is not available?	Week	Month	Quarter	Year	C
426	CaseWare IDEA	In IDEA, using the Quick Summarization option, which of the following statements is correct ?	You can summarize multiple fields simultaneously.	You can only summarize a single field.	You can only summarize fields that contain numeric data.	Quick Summarization is not available for date fields.	B
427	CaseWare IDEA	How many types of joining options are available in IDEA?	3	4	5	6	C
428	CaseWare IDEA	In CaseWare IDEA, the @STRIP() function works similarly to TRIM() function of Excel. -True or False?	TRUE	FALSE			B
429	CaseWare IDEA	In IDEA @Len() Function can return the length of _____	String Type of Field	Number Type of Field	Only String and Number	All types of Field	A
430	CaseWare IDEA	In CaseWare IDEA, which feature should you use to create multiple state-wise databases from a single database?	Key Value Extraction	Pivot Table	Summarization	Group Records	A
SECTION: Zoho							
431	Zoho	Grouping Categorizes Records Based On Which Of The Following	Value Of Any Field	Value Of Only Lookup Fields	Value Of Most Used Fields	Value Of The Least Used Fields	A
432	Zoho	"Recurring Journal" Feature In Zoho Books	To Record Fixed Asset Purchases	To Automate Depreciation Over Time	To Allocate Depreciation Over Time	Inventory Tracking	B

464	Zoho	Which Zoho Books Feature Allows You To Track Time Spent On Projects And Bill	Timesheets	Estimates	Inventory	Purchase Orders	A
465	Zoho	In Zoho Book What Is The Purpose Of The "Brs" Feature	To Track Expenses	To Reconcile Bank Transactions	To Create Invoices	To Generate Financial Statement	B
466	Zoho	Which Module In Zoho Books Allows You To Manage Your Inventory And Track Stock Levels	Sales	Purchase	Contacts	Items	D
467	Zoho	What Feature In Zoho Inventory Allows To Automatically Reorder Products	Stock Adjustment	Inventory Optimization	Stock Alert	Reorder Point	D
468	Zoho	Which Module In Zoho Inventory Allows You To Track The Movement Of Goods From Suppliers To Your Warehouse	Purchase Order	Sales Order	Stock Adjustment	Invoices	A
469	Zoho	Which Feature In Zoho Inventory Helps Keep Track Of The COGS Accurately	Stock Adjustments	Cost Management	Lifo	Fifo	D
470	Zoho	Which Report In Zoho Inventory Provides Insights Into The Profitability Of Products	Profit And Loss Statement	Sales Report	Inventory Valuation Report	Sales Tax Report	A
471	Zoho	In Zoho Inventory, What Feature Allows You To Create Bundles/Kits Of Multiple Products	Composite Items	Batch Tracking	Serialized Inventory	Stock Transfer	A
472	Zoho	Which Module In Zoho Inventory Enables You To Track The Movement Of Goods From Your Warehouse To Customers	Sales Orders	Purchase Orders	Stock Adjustments	Shipping Orders	D
473	Zoho	What Does The "Batch Tracking" Feature In Zoho Inventory Allow You To Do	Track The Expiry Dates Of Products	Manage Products With Unique Serial Numbers	Track The Movement Of A Group Of Identical Products	Monitor Real-Time Stock Levels	A
474	Zoho	Which Zoho Banking Module Is Used To Reconcile Transactions And Manage Bank Account	Bank Reconciliation	Expense Tracking	Invoice Management	Budgeting	A
475	Zoho	Which Feature In Zoho Banking Allows You To Categorize Expenses And Track Spending	Bank Feeds	Expense Categories	Transaction Tags	Budget Allocation	B

Q#	Topic	Question Description	Option A	Option B	Option C	Option D	Correct Option
476	Zoho	In Zoho Banking, What Feature Helps You Automatically Import Transactions From Your Bank Account	Bank Feeds	Expense Tracking	Invoice Management	Budgeting	A
477	Zoho	Which Zoho Banking Feature Allows You To Create And Send Invoices To Customers	Bank Feeds	Expense Tracking	Invoice Management	Budgeting	C
478	Zoho	In Zoho Banking, What Module Helps You Forecast And Allocate Funds For Various Expenses And Projects	Bank Reconciliation	Expense Tracking	Invoice Management	Budgeting	D
479	Zoho	What Does The "Expense Tracking" Feature In Zoho Banking Allow You To Do	Monitor Real-Time Stock Levels	Record And Categorize Expenses	Reconcile Bank Transactions	Create And Manage Customer Invoice	B
480	Zoho	Which Feature In Zoho Banking Helps You Maintain A Record Of All Financial Transactions	Bank Reconciliation	Expense Tracking	Transaction History	Budgeting	C
481	Zoho	What Types Of Data Sources Can You Connect To In Zoho Reports	Only Zoho Application	Only Google Application	Both Cloud And On-Premise Databases	Only Microsoft Application	C
482	Zoho	Which Of The Following Visualizations Is Not Available In Zoho Reports	Pie Chart	Bubble Chart	Gauge Chart	Treemap	D
483	Zoho	In Zoho Reports, What Is A Workspace	A Physical Office Provided By Zoho For Report Creation	A Virtual Space To Organize Reports, Dashboards And Data Sources	A Storage Space For Large Datasets	A Collaboration Tool For Team Communication	B
484	Zoho	Which Of The Following Zoho Products Integrates Seamlessly With Zoho Reports For Advanced Analytics	Zoho Crm	Zoho Mail	Zoho Project	Zoho Writer	A
485	Zoho	What Is The Significance Of The "Closing Balance" In The Reconciliation Process	It Should Match The Cleared Amount For A Balanced Reconciliation	It Is Not Relevant To The Reconciliation Process	It Represents The Total Revenue For The Period	It Is The Sum Of All Expenses For The Period	A
486	Zoho	Which Module Allows You To Add Additional Details Or Attachments During Reconciliation	Documents	Report	Inventory Transactions	Banking	A
487	Zoho	How Can You Undo A Reconciliation In Zoho Books	Go To "Settings" And Select "Undo Reconciliation"	Delete The Bank Account	Click On "Revert Reconciliation"	Re-Enter All Transactions Manually	A
488	Zoho	What Information Is Required To Start The Reconciliation Process	Start Date, End Date, And Closing Balance	Vendor Name And Purchase Order Number	Customer Name And Sales Invoice Date	Item Quantity And Rate	A
489	Zoho	How Do You Initiate The Reconciliation Process In Zoho Books	Click On "Report" And Select "Balance Sheet"	Access The "Inventory Transactions" Section	Navigate To The "Banking" Module And Select The Account	Go To "Sales Orders" And Create A New Order	C
490	Zoho	What Is The Purpose Of Bank Reconciliation In Zoho Books	To Record Sales Transactions	To Align Bank Account Transactions With Zoho Books Records	To Calculate Liabilities	To Track Employee Salaries	B
491	Zoho	What Is The Flagship Product Of Zoho Corporation	Zoho Mail	Zoho Crm	Zoho Books	Zoho Project	B
492	Zoho	Which Of The Following Is Not A Zoho Productivity Tool	Zoho Writer	Zoho Sheet	Zoho Show	Zoho Code	D
493	Zoho	Zoho Creator Is Primarily Used For _____	Project Management	Customer Relationship Management	App Development	Email Marketing	C
494	Zoho	Zoho Meeting Is Used For _____	Document Collaboration	Video Conferencing	Project Planning	Task Management	B
495	Zoho	Which Zoho Application Is Used For Managing Human Resources	Zoho Crm	Zoho Books	Zoho People	Zoho Inventory	C
496	Zoho	What Is The Cloud-Based Platform Offered By Zoho For Building And Managing Apps	Zoho Creator	Zoho Project	Zoho Analytics	Zoho Cliq	A
497	Zoho	Which Zoho Tool Is Designed For Email Marketing	Zoho Mail	Zoho Campaigns	Zoho Invoice	Zoho Forms	B
498	Zoho	What Is The Name Of Zoho's Online Accounting Software	Zoho Books	Zoho Crm	Zoho Invoice	Zoho Creator	A
499	Zoho	Which Zoho Tool Is Used For Online Document Collaboration	Zoho Crm	Zoho Docs	Zoho Survey	Zoho Inventory	B
500	Zoho	What Is The Name Of Zoho's Online Presentation Tool	Zoho Writer	Zoho Sheet	Zoho Show	Zoho Sign	C
501	Zoho	Zoho Assist Is Primarily Used For _____	Remote Support And Access	Customer Relationship Management	Task Management	Website Analytics	A
502	Zoho	Which Of The Following Is Not A Feature Of Zoho Projects	Gantt Charts	Time Tracking	Document Management	Email Marketing	D
503	Zoho	What Does Zoho Projects Primarily Help With	Customer Relationship Management	Project Management	Accounting	Social Media Management	B
504	Zoho	What Is The Purpose Of Zoho Projects' Time Tracking Feature	Managing Customer Contacts	Tracking Project Progress	Billing Clients Accurately	Managing Inventory	C
505	Zoho	Which Of The Following Is Not A Module Included In Zoho Basic	Contacts	Deals	Projects	Invoices	C
506	Zoho	What Is The Primary Function Of Zoho Books Basic	Email Marketing	Project Management	Accounting	Customer Relationship Management	C
507	Zoho	Which Of The Following Features Is Included In Zoho Books Basic	Time Tracking	Inventory Management	Lead Management	Social Media Management	B
508	Zoho	Which Module In Zoho Books Allows Users To Track Expenses And Manage Vendor Payments	Contacts	Sales	Purchase	Reports	C

Q#	Topic	Question Description	Option A	Option B	Option C	Option D	Correct Option
509	Zoho	Which Zoho Application Integrates Seamlessly With Zoho Books Basic For Managing Customer Payments	Zoho Projects	Zoho Crm	Zoho Subscriptions	Zoho Campaigns	B
510	Zoho	When Was Zoho Corporation Founded	2000	2005	2010	2015	A
511	Zoho	What Was The Original Name Of Zoho Corporation	Zoho Technologies	Adventnet	Zenith Corporation	Techzoho Solution	B
512	Zoho	Where Is The Headquarters Of Zoho Corporation Located	Silicon Valley, USA	Tokyo Japan	Bangalore India	London UK	C
513	Zoho	How Can You Track Expenses In Zoho Books	By Entering Them Manually	By Uploading Receipts	By Connecting Bank Accounts	All Of The Above	D
514	Zoho	What Does The 'Purchase Order' Feature In Zoho Books Help You Manage	Sales Transactions	Supplier Orders	Customer Payments	Inventory Levels	B
515	Zoho	Which Feature In Zoho Books Helps You Generate Financial Forecasts	Budgeting	Cash Flow Statements	Profit And Loss Report	Inventory Valuation	A
516	Zoho	Which Of The Following Reports Is Specifically Used To Track The Financial Health Of A Business	Balance Sheet	Inventory Report	Time Log Report	Expense Report	A
517	Zoho	When Was Zoho Books Officially Launched	2008	2011	2014	2016	B
518	Zoho	Which Company Developed Zoho Books	Microsoft	Salesforce	Zoho Corporation	Oracle	C
519	Zoho	What Significant Update Did Zoho Books Receive In 2014	Integration With Paypal	Introduction Of Mobile Apps For iOS And Android	Advance Tax Management	Enhanced Project Management Tools	B
520	Zoho	In Which Year Did Zoho Books Add Support For Multicurrency Transactions	2012	2013	2015	2017	C
521	Zoho	Which Year Did Zoho Books First Include A Feature For Managing And Tracking Inventory	2011	2013	2015	2017	B
522	Zoho	What Was One Of The Primary Updates In Zoho Books In 2020	Dark Mode	Simplified Dashboard	Mobile App	Advanced Analytics	B
523	Zoho	What Was The Major Update To Zoho Books In 2016 At Inventory Section	Items Groups And Bundles	Inventory Valuation Report	Automated Stock Replenishment	Multi-Warehouse Management	D
524	Zoho	What Is The Default Currency Used In Zoho Books	USD	EUR	GBP	INR	A
525	Zoho	By Default, Which User Role Is Assigned The Highest Level Of Access In Zoho Books	Standard User	Accountant	Admin	Read Only User	C

SECTION: TALLY PRIME							
531	Tally Prime	What is Tally?	Accounting software	Inventory management software	Payroll management software	All of the above	D
532	Tally Prime	Which of the following is a feature of Tally?	Financial reporting	Tax compliance	Inventory management	All of the above	D
533	Tally Prime	Which of the following is not a module in Tally?	Accounting	Inventory	Payroll	CRM	D
534	Tally Prime	What is the purpose of the "Voucher" feature in Tally?	To create invoices	To record transactions	To generate reports	To manage inventory	B
535	Tally Prime	Which of the following reports can be generated in Tally?	Balance Sheet	Profit & Loss Statement	Cash Flow Statement	All of the above	D
536	Tally Prime	Can Tally be used for multi-company accounting?	Yes	No	Maybe	Not sure	A
537	Tally Prime	What is the purpose of the "Ledger" feature in Tally?	To create accounts	To record transactions	To generate reports	To manage inventory	A
538	Tally Prime	Can Tally be integrated with other software?	Yes	No	Maybe	Not sure	A
539	Tally Prime	What is the purpose of the "Stock Query" feature in Tally?	To track inventory levels	To manage orders	To generate reports	To record transactions	A
540	Tally Prime	Can Tally be used for budgeting and forecasting?	Yes	No	Maybe	Not sure	A
541	Tally Prime	Can Tally be used for generating e-Way Bills?	Yes	No	Maybe	Not sure	A
542	Tally Prime	What is the purpose of the "Chart of Accounts" in Tally?	To create invoices	To record transactions	To classify accounts	To generate reports	C
543	Tally Prime	Total No of Voucher Type Available in Tally Prime?	21	22	23	24	D
544	Tally Prime	Which of the following accounting standards can be followed in Tally?	GAAP(Generally Accepted Accounting Principles)	IFRS(International Financial Reporting Standards)	Ind AS(Indian Accounting Standard)	All of the above	D
545	Tally Prime	Can Tally be used for maintaining multiple cost centers?	Yes	No	Maybe	Not sure	A

Q#	Topic	Question Description	Option A	Option B	Option C	Option D	Correct Option
546	Tally Prime	What is the purpose of the "Debit Note" and "Credit Note" in Tally?	To record transactions	To generate reports	To manage inventory	To adjust accounts	D
547	Tally Prime	What type of Stock Journal voucher is used to record the transfer of goods from one godown to another?	Material In	Material Out	Stock Transfer	Stock Revaluation	C
548	Tally Prime	What is the correct treatment for Accounts Payable and Accounts Receivable in a company's balance sheet?	Accounts Payable is an asset, and Accounts Receivable is a liability	Accounts Payable is a liability, and Accounts Receivable is an asset	Both Accounts Payable and Accounts Receivable are assets	Both Accounts Payable and Accounts Receivable are liabilities	B
549	Tally Prime	What is the purpose of enabling "Bill-Wise Details" in the Accounts Payable or Accounts Receivable ledger?	To track the payment history of individual bills	To view the total outstanding balance of all bills	To display the bill-wise details in the balance sheet	To generate bills for customers or suppliers	A
550	Tally Prime	In Tally, what happens when you enable "Bill-wise Entry" in a Purchase voucher?	The voucher will only allow entry of a single bill	The voucher will automatically generate a payment entry	The voucher will allow entry of multiple bills with their respective details	The voucher will not allow entry of any bills	C
551	Tally Prime	In Tally, what happens when you enable "Bill-wise Entry" in a Payment voucher?	The voucher will only allow payment against a single bill	The voucher will automatically generate a purchase entry	The voucher will allow payment against multiple bills with their respective details	The voucher will not allow payment against any bills	C
552	Tally Prime	In Tally, what is the effect of using the "Bill-wise Entry" feature in a Payment voucher on the "Outstanding Bills" report?	The report will not show any bills	The report will show only fully paid bills	The report will show partially paid bills with the outstanding amount	The report will show all bills, including fully paid and outstanding bills	C
553	Tally Prime	What happens when you clear a bill in a Payment voucher using the "Bill-wise Entry" feature in Tally?	The entire invoice amount will be cleared	Only the payment amount will be cleared	The bill will be marked as fully paid	The bill will be deleted	C
554	Tally Prime	Which of the following statements is true regarding the alteration of a ledger master in Tally?	Ledger masters can be altered only if there are no transactions associated with them	Ledger masters can be altered at any time, regardless of transactions	Ledger masters can be altered, but changes will only affect future transactions	Ledger masters cannot be altered once created	C
555	Tally Prime	What happens when you delete a ledger master in Tally that has associated transactions	The transactions will be automatically deleted	The transactions will be retained, but the ledger master will be removed	The deletion will be blocked, and a warning message will appear	The ledger master will be deleted, but the transactions will be reassigned to a default ledger	C
556	Tally Prime	What happens when a customer's credit limit is exceeded in Tally?	The transaction will be automatically posted	A warning message will appear, but the transaction will be posted	The transaction will be blocked, and a warning message will appear	The credit limit will be automatically increased	C
557	Tally Prime	Which of the following reports in Tally displays the list of bills that are due for payment to suppliers?	Bills Receivable Report	Bills Payable Report	Outstanding Payments Report	Payment Due Report	B
558	Tally Prime	What information does the Bills Receivable Report in Tally typically display?	List of bills paid to suppliers	List of bills received from customers	List of credit notes issued to customers	List of debit notes received from suppliers	B
559	Tally Prime	Which of the following banking transactions can be recorded in Tally using the "Bank Entry" voucher type?	Cheque deposit	Cash withdrawal	Bank transfer	All of the above	D
560	Tally Prime	What is the purpose of reconciling a bank statement in Tally?	To verify the accuracy of the company's cash balance	To identify and correct discrepancies between the company's records and bank records	To generate a bank statement for the company	To transfer funds between bank accounts	B
561	Tally Prime	What is the primary benefit of using Auto Bank Reconciliation in Tally?	Automatic posting of bank transactions	Manual entry of bank statements	Faster and accurate reconciliation of bank statements	Generation of bank statements	C
562	Tally Prime	What is the purpose of configuring a Payment Gateway in a Merchant Profile in Tally?	To enable offline payments	To integrate with accounting software	To facilitate online transactions and accept payments	To manage inventory and stock levels	C
563	Tally Prime	In Tally, what is the purpose of using "Advance Reference" while creating a voucher?	To link a voucher to a specific ledger account	To assign a unique reference number to a voucher	To connect a voucher to a related transaction or document	To specify the voucher's date and time	C

565	Tally Prime	What information is typically entered during the company creation process in Tally?	Only company name and address	Only financial year and accounting calendar	Company name, address, financial year, and accounting calendar	All of the above, plus tax rates and ledger accounts	C
566	Tally Prime	Which of the following masters can be created in Tally?	Ledger master only	Group master only	Both ledger and group masters	Neither ledger nor group masters	C
567	Tally Prime	Which of the following company features in Tally allows you to manage and track multiple currencies?	Multi-Currency	Forex Management	Currency Exchange	Global Financials	A
568	Tally Prime	What is the purpose of the "TallyVault" feature in Tally?	To secure online transactions	To encrypt company data	To backup company data	To protect company data from unauthorized access	D
569	Tally Prime	Is there any Default Cost Centre available In Tally?	Yes	No	Maybe	Not sure	B
570	Tally Prime	What is the primary purpose of creating a Cost Centre Class in Tally?	To categorize ledger accounts	To group cost centres for budgeting and tracking	To classify transactions by type	To set up user access rights	B
571	Tally Prime	How many default Ledgers are available in Tally?	2	22	24	28	A

Q#	Topic	Question Description	Option A	Option B	Option C	Option D	Correct Option
572	Tally Prime	Which of the following methods of interest calculation is supported by Tally?	Simple Interest only	Compound Interest only	Both Simple and Compound Interest	Neither Simple nor Compound Interest	C
573	Tally Prime	Which of the following is a benefit of using Multi-Currency in Tally?	Simplified tax calculations	Enhanced security features	Accurate foreign exchange gain/loss tracking	Streamlined inventory management	C
574	Tally Prime	Which of the following is a step in the Bank Reconciliation process in Tally?	Comparing the bank statement with the cash book	Adjusting the cash book to match the bank statement	Identifying and correcting discrepancies	All of the above	D
575	Tally Prime	What is the primary purpose of Bank Reconciliation in Tally?	To verify the accuracy of ledger accounts	To match company's bank statement with Tally's cash book	To identify and correct discrepancies in cash transactions	To generate the balance sheet	B
576	Tally Prime	Which of the following is a way to navigate reports in Tally?	Using the "Go To" option	Using the "View" option	Using the "Reports" menu	All of the above	D
577	Tally Prime	What is the purpose of the "F12: Configure" option in Tally reports?	To print the report	To export the report to Excel	To customize the report layout and content	To save the report as a PDF	C
578	Tally Prime	What does the Stock Summary report in Tally display?	Detailed information about each stock item	A summary of stock levels and values for all stock items	A list of stock items that are below the minimum reorder level	A list of stock items that are nearing expiration	B
579	Tally Prime	Default Godown in Tally?	Primary Godown	Main Godown	Main Location	None of the Above	C
580	Tally Prime	How many types of measurement units can we create in tally?	1	2	3	4	B
581	Tally Prime	Which of the following is a benefit of Tally's ERP application?	Manual data entry requirements	Limited scalability	Real-time visibility into business operations	No customization options	C
582	Tally Prime	Which of the following is a benefit of Tally Prime's "Go To" feature?	Enables quick access to specific reports and masters	Allows only ledger-wise navigation	Supports only basic reporting	No customization options	B
583	Tally Prime	What is the purpose of the "Trial Balance" in Tally?	To generate the balance sheet	To generate the profit and loss statement	To verify the accuracy of ledger accounts	To create a new company	C
584	Tally Prime	What is the purpose of the "Inventory Management" module in Tally?	To manage financial transactions	To manage customer relationships	To track and manage stock levels	To generate payroll	C
585	Tally Prime	Which of the following is a benefit of using Tally's "Remote Access" feature?	Access to Tally is restricted to a single location	Increased risk of data loss and corruption	Ability to access Tally from anywhere, at any time	Limited to read-only access	C
586	Tally Prime	What is the purpose of the "Budgets and Scenarios" feature in Tally?	To track actual financial performance	To create and manage budgets and forecasts	To generate financial reports	To manage inventory levels	B
587	Tally Prime	Which of the following is a feature of Tally's "Security Control"?	User-level access control	Data encryption	Audit trail	All of the above	D
588	Tally Prime	Which of the following is a benefit of using Tally's "Data Backup and Restore" feature?	Increased risk of data loss	Manual backup process	Automatic backup and quick restore	Limited to local backups only	C
589	Tally Prime	Which of the following is a benefit of using Tally's "Multi-Company" feature?	Ability to manage only one company	Ability to manage multiple companies with separate data	Ability to manage multiple companies with shared data	Ability to manage only related companies	B
590	Tally Prime	What is the purpose of Security Levels in Tally?	To restrict access to specific features and data for any specific User	To allow unlimited access to all features and data	To create customized reports and views	To manage multiple companies and data	A
591	Tally Prime	What is the purpose of creating a Group Company in Tally?	To manage multiple branches of a single company	To manage multiple companies with separate financials	To manage multiple departments within a company	To manage multiple cost centers within a company	B
592	Tally Prime	Which of the following is a benefit of creating a Group Company in Tally?	Limited flexibility in financial reporting	Inability to share data between companies	Ability to consolidate financials and perform inter-company transactions	Increased complexity in financial management	C
593	Tally Prime	How do you create a Group Company in Tally?	By creating a new company and selecting "Group Company" option	By creating a new group and adding companies to it	By converting an existing company to a Group Company	By merging multiple companies into a single company	B
594	Tally Prime	What happens to the transactions recorded before the split date when using the Split Company Data feature in Tally?	They are deleted	They are moved to the new company	They remain in the original company	They are duplicated in both companies	C
595	Tally Prime	What is the purpose of the Split Company Data feature in Tally?	To merge financial data of two companies	To split financial data of a company into two separate companies	To delete financial data of a company	To create a backup of financial data	B
596	Tally Prime	Which of the following transactions requires an e-way bill to be generated?	When goods worth 10,000 or more are transported	When goods worth 50,000 or more are transported	When goods are transported within the same city	For all types of goods irrespective of value	B
597	Tally Prime	Which of the following entities are required to generate e-invoices as per the latest regulations?	Businesses with annual turnover exceeding 50 crore	Businesses with annual turnover exceeding 100 crore	Businesses with annual turnover exceeding 5 crore	All registered businesses	B
598	Tally Prime	What does the first two digits of GSTIN represent?	PAN number	State code	Business type	Legal entity	B
599	Tally Prime	What is the full form of API?	Application Programming Interface	Applied Programming Interface	Advanced Programming Interface	Automated Programming Interface	A
600	Tally Prime	Which of the following is the first step in configuring GST in Tally Prime?	Create GST Ledgers	Enable GST in Statutory Features	Enter party details in vouchers	Configure stock items	B

Q#	Topic	Question Description	Option A	Option B	Option C	Option D	Correct Option
601	Tally Prime	When tax rates are defined at multiple levels, Tally applies tax rates as _____	Transaction-Accounting Ledger-Accounting Group-Stock Items-Stock Group-Company	Company-Stock Group-Stock Item-Accounting Group-Accounting Ledger-Transaction	only from Company	only from Accounting Ledger	A
602	Tally Prime	What is the order of ITC utilization for payment of IGST liability	First IGST, then CGST, then SGST	First CGST, then SGST, then IGST	First SGST, then CGST, then IGST	First IGST, then CGST and SGST in any order	D

The tax invoice must be available, and the goods/services must be used for business purposes	The goods/services must be used for personal consumption	The goods must be resold immediately	The invoice should be over 6 months old	A
604	Tally Prime	What is the primary purpose of the E-Way Bill system under GST?	To generate invoices	To track the movement of goods	To file GST returns	To apply for GST registration	B
605	Tally Prime	What is the website for generating E-Way Bills?	www.gst.gov.in	www.ewaybill.nic.in	www.cbic.gov.in	www.einvoicing.gov.in	B
606	Tally Prime	What is the full form of GSP in the context of GST?	General Service Provider	Government Service Provider	GST Suvidha Provider	Goods Service Provider	C
607	Tally Prime	Which of the following is NOT required for E-Way Bill generation?	Invoice or Bill of Supply	Transporter's ID	HSN code of goods	PAN of the supplier	D
608	Tally Prime	Which of the following ledgers needs to be created for recording GST in Tally Prime?	Sales Ledger, Purchase Ledger, GST Ledger	Capital Ledger, GST Ledger, Expense Ledger	Only GST Ledger	Only Sales Ledger	A
609	Tally Prime	Which type of ledger should be created to record tax on sales under GST in Tally Prime?	Capital Account Ledger	Expense Ledger	Duties & Taxes Ledger	Sundry Debtors Ledger	C
610	Tally Prime	What is the Key Combination to change mode of Purchase Voucher	Ctrl+H	Ctrl+M	Ctrl+D	Alt+A	A
611	Tally Prime	Key Combination to View tax Analysis Report in Purchase Voucher	Ctrl+H	Ctrl+M	Ctrl+D	Alt+A	D
612	Tally Prime	What happens if you select the GST ledger not applicable in Purchase in Tally Prime?	Tally Prime will automatically apply the default rate	The GST amount will not be calculated, and it will not reflect in GST reports	Tally Prime will prompt you to select a rate	The purchase transaction will be rejected	B
613	Tally Prime	You can add voucher from Day BOOK by pressing _____	ALT+A	ALT+I	ALT+B	ALT+G	A
614	Tally Prime	Which feature in Tally Prime allows you to control user access to various functions and data?	Security Control	Data Synchronization	Audit trail	Backup and restore	A
615	Tally Prime	In Tally Prime, what is required to set up user-level access control?	Creating Company Backup	Creating User Role	Creating User	Activating Password policy	B
616	Tally Prime	To record an adjustment or correction entry, which voucher type is typically used?	Payment Voucher	Journal Voucher	Receipt Voucher	Contra Voucher	B
617	Tally Prime	How Many modes are available for Purchase Voucher	2	3	4	1	B
618	Tally Prime	What is the shortcut key to open the Debit Note voucher in Tally Prime?	Alt+F9	Ctrl+F8	Alt+F5	Alt+F6	C
619	Tally Prime	In Tally prime Debit Note Voucher is typically used to record _____	Purchase Return	Sales Return	None of the Above	All of Above	A
620	Tally Prime	How does the "Check Credit Period" field affect the debtor's transactions in Tally Prime?	It restricts the total amount that can be invoiced to the debtor	It helps in calculating interest on overdue payments	It sets the period within which payments should be made to avoid penalties	It determines the credit period allowed before the invoice is flagged as overdue	D
621	Tally Prime	What does the "Preallocate Bills" feature in Tally Prime allow you to do?	Predefine credit limits for customers	Allocate payments or receipts against specific bills before recording transactions	Automatically generate bills based on pre-defined parameters	Adjust inventory levels based on transactions	B
622	Tally Prime	In Tally Prime, what must be configured before printing cheques?	Company's Tax Rate	The cheque printing format and layout	Print Setup	To create cheque printing templates	B
623	Tally Prime	Can I Print a Blank Check in Favour of Any vendor in Tally Prime	Yes	No	only at the time of Statutory payment	after adding TDL(Add on) features	C
624	Tally Prime	Which of the following is the correct method to activate auto bank reconciliation	Gateway of Tally > Alter > Ledger > Select Set Enable Auto Reconciliation to Yes	Gateway of Tally > Banking	Gateway of Tally > Banking > Reconcile Bank Account	None of the Above	A
625	Tally Prime	What is the primary purpose of enabling the Multi-Currency feature in Tally Prime?	To manage multiple bank accounts	To record and manage transactions in different currencies	To calculate Exchange Gain/Loss	both B & C	D
626	Tally Prime	What is the function of the "Exchange Rate" in Multi-Currency transactions in Tally Prime?	It sets the tax rate for foreign purchases	It converts the value of transactions in foreign currency to base currency	It adjusts the stock value	None of the Above	B
627	Tally Prime	Which of the following types of interest calculation methods are available in Tally Prime?	Simple and Compound	Fixed and Fluctuating	Gross and Net	Flat and Declining	A
628	Tally Prime	Which ledger should be enabled for interest calculation when creating a party account in Tally Prime?	Sundry Debtors and Creditors Ledger	Bank Account	Secured Loan Account	None of the Above	A

SECTION: ORACLE FUSION

Q#	Topic	Question Description	Option A	Option B	Option C	Option D	Correct Option
629	Oracle Fusion	Which Oracle Fusion Component Is Designed For Financial Management	Hcm	Crm	Scm	Financials	D
630	Oracle Fusion	Oracle Fusion Applications Are Built On Which Technology Stack	On Premises Oracle Technology	Cloud Based Architecture	Legacy Oracle Technology	Third Party Technology	B
631	Oracle Fusion	Oracle Fusion Crm Primarily Focuses On Which Area	Financial Management	Customer Relationships	Supply Chain Logistics	Human Resources	B
632	Oracle Fusion	In Oracle Fusion, Which Module Is Primarily Responsible For Managing The P2P Process	Oracle Inventory	Oracle Accounts Payable	Oracle Purchasing	Oracle Order Management	C
633	Oracle Fusion	In Oracle Fusion, Which Document Type Is Used To Formally Request The Purchase Of Goods Or Service	Purchase Order	Purchase Requisition	Invoice	Receipt	B
634	Oracle Fusion	In Oracle Fusion What Document Confirms The Receipt Of Goods Or Service	Purchase Order	Receipt	Invoice	Payment Voucher	B
635	Oracle Fusion	What Does The Term "Three-Way Matching" Refer To In Oracle Fusion	Matching Invoices With Purchase Orders And Payments	Matching Purchase Orders With Receipts And Invoices	Matching Purchase Requisitions With Purchase Orders And Receipts	Matching Invoices With Purchase Orders And Suppliers	B
636	Oracle Fusion	In Oracle Fusion, What Is The Primary Function Of The "Invoice Validation" Process	To Create Purchase Orders	To Approve Payments To Suppliers	To Ensure Invoices Match Purchase Orders And Receipts	To Manage Supplier Contracts	C
637	Oracle Fusion	In Oracle Fusion, Which Types Of Purchase Order Allows For Flexible Delivery Dates And Quantities	Standard Purchase Order	Blanket Purchase Order	Contract Purchase Order	Service Purchase Order	B
638	Oracle Fusion	What Is The Role Of The "Receipt" Document In The Procure-To-Pay Process (P2P) In Oracle Fusion	To Document Vendor Payments	To Validate Invoice Amounts	To Confirm The Delivery Of Purchased Goods	To Generate Purchase Orders	C
639	Oracle Fusion	When Was Oracle Fusion Application First Announced	2005	2007	2009	2011	B
640	Oracle Fusion	Oracle Fusion Applications Were Developed As A Result Of The Merger Between Oracle And Which Other Company	Siebel Systems	Peoplesoft	Jd Edwards	Hyperion	B
641	Oracle Fusion	In Which Year Did Oracle Officially Release The First Version Of Oracle Fusion Application	2008	2009	2010	2011	D
642	Oracle Fusion	Which Key Technology Application Foundation标志Is Used For Oracle Fusion	Oracle Database	Oracle Cloud Infrastructure	Oracle Weblogic Server	Oracle Java	C
643	Oracle Fusion	Oracle Fusion Application Are Built On Which Cloud Model	Private Cloud	Public Cloud	Hybrid Cloud	On-Premises	B
644	Oracle Fusion	What Was One Of The Primary Goals For The Development Of Oracle Fusion Applications	To Replace Oracle'S Hardware Systems	To Integrate And Modernize Oracle'S Existing Erp Offerings	To Introduce New Hardware Solutions	To Eliminate The Need For Any Third-Party Application	B
645	Oracle Fusion	In Oracle Fusion, Which Document Is Generated After A Sales Order Is Confirmed And Before Shipping	Sales Quote	Sales Order	Shipping Document	Receipt	C
646	Oracle Fusion	Which Document Is Issued To Correct A Billing Error Or Adjust The Amount Of A Previously Issued Invoice In Oracle Fusion	Credit Memo	Debit Memo	Shipping Notice	Sales Order	A
647	Oracle Fusion	Which Module In Oracle Fusion Is Responsible For Managing Employee Data And Hr Processes	Oracle Financial Services	Oracle Human Capital Management	Oracle Supply Chain Management	Oracle Customer Experience	B
648	Oracle Fusion	Which Shortcut Key Combination In Oracle Fusion Opens The "Search" Dialog	Ctrl+F	Alt+S	Ctrl+S	F1	A
649	Oracle Fusion	What Does Pressing "Ctrl+N" Do In Oracle Fusion Application	Opens The "New" Record Form	Saves The Current Record	Opens The "Search" Dialog	Closes The Current Window	A
650	Oracle Fusion	What Is The Primary Purpose Of Auditing In Oracle Fusion Applications	Performance Monitoring	Security And Compliance	Data Analysis	User Training	B
651	Oracle Fusion	Which Module In Oracle Fusion Provides Audit Functionalities To Track Changes Made By User	Oracle Fusion Financials	Oracle Fusion Hcm	Oracle Fusion Audit	Oracle Fusion Procurement	C
652	Oracle Fusion	In Oracle Fusion, What Can You Audit Using The Audit Trail' Features	System Performance	User Login Attempts	Data Changes And User Actions	Network Traffic	C
653	Oracle Fusion	What Does The H2R Process In Oracle Fusion Stand For	Hire Role	Hire To Revenue	Hire To Retire	Hire To Recruitment	C
654	Oracle Fusion	Which Module In Oracle Fusion Manages The Entire Employee Lifecycle From Hiring To Retirement	Oracle Fusion Payroll	Oracle Fusion Human Capital Management(Hcm)	Oracle Fusion Financials	Oracle Fusion Procurement	B
655	Oracle Fusion	What Does The O2C Process In Oracle Fusion Stand For	Order To Cash	Order To Credit	Order To Collection	Order To Customer	A
656	Oracle Fusion	What Is The Primary Purpose Of The 'Order Entry' Phase In The O2C Process	To Process Payments	To Create And Confirm Customer Orders	To Handle Inventory Adjustments	To Manage Supplier Relationships	B
657	Oracle Fusion	Which Oracle Fusion Module Is Used To Manage Inventory	Oracle Fusion Order Management	Oracle Fusion Inventory Management	Oracle Fusion Accounts Receivable	Oracle Fusion Procurement	B
658	Oracle Fusion	Which Phase Involves Managing And Applying Payments Received From Customers	Order Fulfillment	Invoice Generation	Payment Collection	Credit Management	C
659	Oracle Fusion	Which Module In Oracle Fusion Is Used For Managing Financial Transactions	Fusion Hcm	Fusion Crm	Fusion Financials	Fusion Scm	C
660	Oracle Fusion	What Is The Primary Purpose Of Oracle Fusion Project Portfolio Management	To Manage Customer Relationships	To Oversee Financial Transactions	To Handle Projects And Portfolios	To Manage Human Resources	C

Q#	Topic	Question Description	Option A	Option B	Option C	Option D	Correct Option
661	Oracle Fusion	In Oracle Fusion, What Does The P2P Process Primarily Involve	Sales Order Management	Procurement And Payment Processing	Human Resources Management	Financial Reporting	B
662	Oracle Fusion	Which Module In Oracle Fusion Is Used To Manage Purchase Orders	Fusion Financials	Fusion Procurement	Fusion Supply Chain Management	Fusion Human Capital Management	B
663	Oracle Fusion	What Is The First Steps In The P2P Process In Oracle Fusion	Receive Goods	Make Payment	Create A Purchase Order	Create An Invoice	C
664	Oracle Fusion	What Is Oracle Fusion Application Primarily Known For	Social Media Integration	Enterprise Resource Planning (Erp) And Cloud Based Application	Mobile App Development	Database Management Only	B
665	Oracle Fusion	In Oracle Fusion, Which Module Is Used To Manage Customer Interactions And Sales	Fusion Crm	Fusion Scm	Fusion Financials	Fusion Hcm	A
666	Oracle Fusion	Which Document Is Used In Oracle Fusion Inventory To Record The Receipt Of Goods	Purchase Order	Goods Receipt	Invoice	Sales Order	B
667	Oracle Fusion	Which Module In Oracle Fusion Inventory Is Used To Manage Inventory Adjustments	Inventory Transactions	Inventory Valuation	Inventory Control	Inventory Adjustments	D
668	Oracle Fusion	Which Functionality In Oracle Fusion Inventory Helps With Managing Inventory At Multiple Locations	Multi-Location Inventory Management	Global Financial Management	Human Capital Management	Sales Forecasting	A
